Manual of Gas Permeable Contact Lenses 2004

interest in prescribing rigid gas permeable rgp contact lenses is on the rise fueled by the increased use of orthkeratology bifocal lenses and advances in corneal topography making fitting easier this concise and comprehensive resource provides valuable coverage for the prescribing and fitting of rgp lenses based on the authors years of expertise in fitting these lenses this clinically oriented manual also includes a companion cd rom to illustrate the fitting

techniques content focuses specifically on rigid gas permeable contact lenses so all the essential information needed for prescribing and fitting is in one convenient resource a companion cd rom illustrates the difficult fitting techniques encountered with rgps

Going Pro for \$200 & How to Choose a Prime Lens

2015-07-19

photographer and writer shawn m tomlinson author of the photo curmudgeon column and books explains in detail the joys of working with a professional albeit older dslr the nikon d1 in fact you can put your hands on a professional dslr body and a lens for around 200 if you really want to know what all the fuss is about tomlinson writes no i m not talking about a nikon d4s that ah fell off a truck i m talking about the very first ground up dslr for the professional

market the nikon d1 the author covers buying and working with the nikon d1 illustrating points with many d1 photos in the second part tomlinson explains the usefulness of prime lenses he considers the uses advantages and disadvantages and provides a conversational approach to making the move to primes in this short guide i give you some pointers about what prime lenses do what type you may need for your particular photographic vision and how to choose what you need tomlinson writes

Leica M Typ 240 2015-04

the 24 megapixel leica m typ 240 is the latest digital rangefinder model that replaces the m9 leica dropped the numbering system that has identified its rangefinders since the m3 was introduced in 1954 yet the simply elegance of its design still takes its cue from earlier models and is available in black or chrome despite this the m is definitely a camera for the 21st

century the first rangefinder to use a full frame cmos image sensor it enables live view and offers a choice of magnified view or focus peaking for precise through the lens manual focusing it is also the first m model capable of movie shooting capturing 1080p footage at 25 or 24 frames per second the camera has a 920k dot rear lcd with scratch resistant cover compact for a full frame camera it measures 3.1 by 5.5 by 1.7 inches but its brass and magnesium construction gives it a heavy for its size weight of 1.5 pounds a large optical viewfinder is located in the top right corner of the body and a second smaller window towards the left this captures a patch of light and together with the viewfinder serves as a rangefinder mechanism peering through the viewfinder the center is brighter than the surrounding area because it shows light from both windows when the lens is out of focus the image in the center will be ghosted when the lens is focused the patches align to form a single image framelines are illuminated using internal led lights in a choice of red or white although the

framelines are not visible when the camera is turned off they are easy to see in dim lighting the 0 68x magnification finder keeps the same sets of framelines that have been built into the m series since the m9 depending on the lens that s mounted 28mm and 90mm 35mm and 135mm or 50mm and 75mm

Manual of Contact Lens Prescribing and Fitting with CD-ROM

2000

leica is a german based optimal image company that started off as a producer of microscopes in 1849 it began to develop cameras in 1913 and then released the first of their signature camera series the leica in 1925 during the last half of the twentieth century the brand became extremely popular in the street photography scene and was used by many noted

photographers such as henri cartier bresson and larry burrows though leica has since retired almost all of its film cameras the antique models are now considered collectables and have sold for over two million dollars at auctions as for their modern digital cameras they have since gained a reputation of their own and come in both professional and compact sizes the m in the leica m line stands for the german term messsucher which is a combination range viewfinder

The Leica Manual 1953
