Advanced Tuning for JD Edwards EnterpriseOne Implementations 2013-07-16 best practices for jd edwards enterprise one tuning and optimization achieve peak performance from your erp platform while minimizing downtime and lowering tco advanced tuning for jd edwards enterprise one implementations shows how to plan and adopt a structured top to bottom maintenance methodology uncover and eliminate bottlenecks maximize efficiency at every component layer troubleshoot databases and web servers automate system testing and handle mobile issues this oracle press guide offers complete coverage of the latest cloud clustering load balancing and virtualization solutions understand the components of a structured tuning plan establish benchmarks and implement key industry practices perform changes and accurately measure system wide impact diagnose and repair http web application and java issues troubleshoot oracle database connections and transactions streamline oracle s jd edwards enterpriseone kernel and jdenet processes configure test and manage virtual machines and servers work with oracle exadata database machine and oracle exalogic elastic cloud

JD Edwards EnterpriseOne, The Complete Reference 2008-12-15 your definitive guide to jd edwards enterpriseone implement and maintain a fully integrated soa based erp framework across your entire corporation jd edwards enterpriseone the complete reference explains how to install and administer jd edwards enterpriseone store bi information in data marts and warehouses manage servers and portals and develop customized applications and kernel processes you ll also learn how to create and distribute packages use the security workbench optimize performance and apply the latest jd edwards enterpriseone updates and tools releases set up and configure the jd edwards enterpriseone applications suite work with oracle sql server db2 msde and sse data sources define jd edwards enterpriseone path codes task views and environments deploy the object configuration manager and solution explorer build client and server packages media objects and data warehouses secure jd edwards enterpriseone using ldap single sign on and third party tools administer portals and sites using jd edwards enterpriseone s html server and server manager troubleshoot and tune your system using the performance workbench covers release 8 12

IBM DB2 Web Query for i: The Nuts and Bolts 2017-05-11 business intelligence bi is a broad term that relates to applications that analyze data to understand and act on the key metrics that drive profitability in an enterprise key to analyzing that data is providing fast easy access to it while delivering it in formats or tools that best fit the needs of the user at the core of any bi solution are user query and reporting tools that provide intuitive access to data supporting a spectrum of users from executives to power users from spreadsheet aficionados to the external internet consumer ibm db2 query for i offers a set of modernized tools for a more robust extensible and productive reporting solution than the popular ibm query for system i tool also known as ibm query 400 ibm db2 query for i preserves investments in the reports that are developed with query 400 by offering a choice of importing definitions into the new technology or continuing to run existing query 400 reports as is but it also offers significant productivity and performance enhancements by leveraging the latest in db2 for i query optimization technology the db2 query for i product is a web based query and report writing product that offers enhanced capabilities over the ibm query for iseries product also commonly known as query 400 ibm db2 query for i includes query for iseries technology to assist customers in their transition to db2 query it offers a more modernized java based solution for a more robust extensible and productive reporting solution db2 query provides the ability to query or build reports against data that is stored in db2 for i or microsoft sql server databases through browser based user interface technologies build reports with ease through the web based ribbon like infoassist tool that leverages a common look and feel that can extend the number of personnel that can generate their own reports simplify the management of reports by significantly reducing the number of report definitions that are required through the use of parameter driven reports deliver data to users in many different formats including directly into spreadsheets or in boardroom quality pdf format or viewed from the browser in html leverage advanced reporting functions such as matrix reporting ranking color coding drill down and font customization to enhance the visualization of db2 data db2 query offers features to import query 400 definitions and enhance their look and functions by using it you can add olap like slicing and dicing to the reports or view reports in disconnected mode for users on the go this ibm redbooks publication provides a broad understanding of what can be done with the db2 query product this publication is a companion of db2 query tutorials sg24 8378 which has a group of self explanatory tutorials to help you get up to speed quickly

Computerworld 1980-10-13 for more than 40 years computerworld has been the leading source of technology news and information for it influencers worldwide computerworld s award winning site computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global it media network

Chemical week 1997 ibm powerhatm for i formerly known as hasm is the ibm high availability disk based clustering solution for the ibm i 6 1 operating system powerha for i when combined with ibm i clustering technology delivers a complete high availability and disaster recovery solution for your business applications running in the ibm system i environment powerha for i enables you to support high availability capabilities with either native disk storage or ibm ds8000tm or ds6000tm storage servers this ibm redbooks publication gives a

broad understanding of powerha for i this book is divided in four major parts part 1 introduction and background on page 1 provides a general introduction to clustering technology and some background part 2 powerha for i setup and user interfaces on page 69 describes and explains the different interfaces that powerha for i has it also describes the migration process to this product and some sizing guidelines part 3 implementation examples using powerha for i on page 319 explains how to use powerha for i with three major erp solutions such as sap lawson m3 and oracle jd edwards part 4 other ibm i 6 1 high availability enhancements on page 349 explains additional ibm i 6 1 announced enhancements in high availability

Implementing PowerHA for IBM i 2010-02-18 as companies depend more and more on their enterprise software for daily operations they require highly available systems jd edwards enterpriseone has long enabled their software with the ibm high availability cluster multi processing hacmp product for high availability this ibm redbooks publication describes the ibm hacmp enhanced scalability hacmp es version 4 5 solution to certify jd edwards enterpriseone 8 9 in an ibm aix high availability environment this book also describes hacmp es version 5 1 it explains how to install and tune hacmp es as well as reviews the setup steps to enable jd edwards enterpriseone for hacmp es while writing this book we conducted tests to simulate that the failures and observations made to ensure that the high availability environment performed properly the results of these tests are also documented this book highlights and explains those characteristics that are specific to jd edwards enterpriseone it contains significant window examples and worksheets to help facilitate an easy step by step installation process it does not replace the extensive installation and administration documentation that is already available for hacmp es

JD Edwards EnterpriseOne 8.9 High Availability and Storage for the IBM EServer PSeries Client 2005 for more than 40 years computerworld has been the leading source of technology news and information for it influencers worldwide computerworld s award winning site computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global it media network
