Hidden Hunger 2013-01-18

hidden hunger is an increasing problem even in developed countries whose potential negative consequences on long term health are often overlooked and underestimated chronic malnutrition is at the core of the global hunger challenge facing science politics and economics in plain language and with moving examples hans k biesalski describes how hidden hunger affects human health long before malnutrition becomes obvious worldwide over one third of deaths among children under 5 years of age is associated with malnutrition as poverty is the main reason for hidden hunger addressing this dire challenge requires long term policies land grabbing and climate change seriously counteract a lot of efforts to overcome hidden hunger this book is a highly impressive call to action investment in agriculture and in particular in small scale farmers to improve subsistence farming are among the approaches suggested to reach a sustainable solution the author is head of the department of biochemistry and nutrition and managing director of the food security center at the university of hohenheim germany he is a member of numerous advisory and expert groups for the world health organization who the food and agriculture organization fao and the global forum on food security and nutrition

World Hunger 1988

the revised edition of this text includes substantial new material on hunger in the aftermath of the cold war global food production versus population growth changing demographics and falling birth rates around the world the shifting focus of foreign assistance in the new world order structural adjustment and other budget slashing policies trade liberalization and free trade agreements famine and humanitarian interventions and the third worldization of developed nations

The Hunger Artists 2013-10-01

this important work addresses the difficult ethical issues surrounding the accessibility of food to all people as a human right and not a privilege that emerges because of social structure or benefit of geography food sovereignty the right of peoples to define their own chosen food and agriculture free of monopolization or threats is the path to stopping global hunger this book approaches the topic from a solutions based perspective discussing concrete policy providing for sovereignty or control of one s own food sources as a solution that while controversial offers more promise than do the actions of international organizations and trade agreements providing access to safe healthy food is an ethical responsibility of the world s nations not just a right of the elite or wealthy this book presses the need to formulate policies that address the problems of poverty and hunger on a more humane and meaningful level organized thematically chapters are based on such topics as food security food sovereignty human rights and sustainability that focus on the global food system specific case studies provide examples of global hunger and poverty issues taken in its entirety the book informs readers of how their food consumption might negatively affect the global poor while its concluding chapters offer solutions for alleviating problems in the global food system

World Hunger 2014-02-04

a timely and provocative look at the role political developments and the biology of nutrition play in world famine

Food as a Human Right 2019-03-22

the definitive solutions based book for all those questioning why hunger still exists when there is such an abundance of food the huffington post food tank s 2015 recommended fall reading list from bestselling authors frances moore lappé and joseph collins comes the twenty first century s authoritative book on world hunger lappé and collins refute the myths that prevent us from addressing the root causes of hunger across the globe world hunger 10 myths draws on extensive new research to offer fresh often startling insights about tough questions from climate change and population growth to genetically modified organisms gmos and the role of us foreign aid and more brimming with little known but life changing examples of solutions to hunger worldwide this myth busting book argues that sustainable agriculture can feed the world that we can end nutritional deprivation affecting one quarter of the world s people and that most in the global north have more in common with hungry people than they thought for novices and scholars alike world hunger 10 myths will inspire a whole new generation of hunger fighters world hunger should become not only a book for study but a guide to action noam chomsky

Hunger 2010

it is within america s technical and financial power to help end world hunger in our lifetime if we set our hearts and minds to the task contrary to what many people believe the world has made measurable advancements against hunger and poverty over the last several decades but too often the binding constraint on further progress is a simple lack of political will as a result one of the most powerful ways to affect change is often the most neglected political activism in this powerful and hopeful book david beckmann president of bread for the world and a leading anti hunger activist looks at the causes of hunger presents case studies of countries that have made great strides against it and puts a human face on the problem by sharing stories of people who are quite simply hungry every day the problems can seem overwhelming but beckmann lays out a clear and workable plan for effectively using political channels to make great progress he not only challenges us to get involved he shows us how it is no less than our call to do so

World Hunger 2015-10-06

this book showcases a unique collection of images documenting how fao has played a leading role in combating hunger worldwide since 1945 it highlights the organization s ongoing efforts to help its members achieve zero hunger in a changing world that is facing new and pressing challenges from migration and climate change the foreword by the fao director general and the introduction to zero hunger by the director of the fao office for corporate communication provide the context for fao s work and a real life example of how zero hunger can change people s lives for the better in addition there are profiles of the five recently appointed fao special goodwill ambassadors for zero hunger next the photos and their

captions with some accompanying text illustrate fao s work and significant moments in its history thus the reader can see the single frames in the context of the whole picture

Exodus from Hunger 2010-10-20

this volume is concerned with food poverty and action on food in security the context is a global one as the developed world faces a problem with overconsumption and chronic diseases the developing world is addressing the double burden of hunger and over consumption even in the developed world nation states are facing the rise of modern malnutrition which is over consumption but also the re emergence of hunger as there are growing levels of poverty and inequality due to the financial crises food insecurity is in many people s minds associated with hunger and while this is true the modern food system has introduced new complexities to food insecurity with the growth of micro nutrient inequalities hunger and obesity are not being faced by two different groups but often the same group or cohort these are features of modern malnutrition that are often not recognized a critical examination of food poverty and food security is undertaken with a view to clarifying taken for granted assumptions in present discourses the book addresses food charity and the rise of solutions such as foodbanks as appropriate social responses the final chapters explore the solutions from real life situations the concluding chapter from the editors draws together the issues and locates solutions within a food policy framework of the total food system the various definitions of food insecurity will be examined hunger and its modern manifestations hunger and obesity is another focus with particular explorations of developed and developing countries experiences some of the chapters cover how food poverty insecurity is being addressed and provide examples of work in progress

Towards Zero Hunger 1945-2030 2017-01-01

the first book ever to examine the links between hunger and race the color of hunger probes the contemporary and historical reasons hunger is concentrated among people of color both domestically and globally

Food Poverty and Insecurity: International Food Inequalities 2015-10-23

we see famine and look for the likely causes poor food distribution unstable regimes caprices of weather a technical problem we tell ourselves one that modern social and natural science will someday resolve to the contrary jenny edkins responds in this book famine in the contemporary world is not the antithesis of modernity but its symptom a critical investigation of hunger famine and aid practices in international politics whose hunger shows how the forms and ideas of modernity frame our understanding of famine and consequently shape our responses

The Color of Hunger 1995-05-16

originally published in 1969 the documentary evidence of poverty and malnutrition in the american south showcased in still hungry in america still resonates today the work was

created to complement a July 1967 U.S. Senate subcommittee on employment, manpower, and poverty hearings on hunger in America. At those hearings, witnesses documented examples of deprivation afflicting hundreds of thousands of American families. The most powerful testimonies came from the authors of this profoundly disturbing and important book. Al Clayton's sensitive camerawork enabled the subcommittee members to see the agonizing results of insufficient food and improper diet rendered graphically in stunted, weakened, and fractured bones, dry, shrunken, and ulcerated skin, wasting muscles, and bloated legs and abdomens. Physician and child psychiatrist Robert Coles, who had worked with these populations for many years, described with fierce clarity the medical and psychological effects of hunger. Coles's powerful narrative, reinforced by heartbreaking interviews with impoverished people and accompanied by 101 photographs taken by Clayton in Appalachia, rural Mississippi, and Atlanta, Georgia, convey the plight of the millions of hungry citizens in the most affluent nation on earth. A new foreword by historian Thomas J. Ward, Jr. analyzes food insecurity among today's rural and urban poor and frames the current crisis in the American diet not as a scarcity of food but as an overabundance of empty calories leading to obesity, diabetes, and high blood pressure.

Whose Hunger? 2000

In 2000, the world's leaders set a target of halving the percentage of hungry people between 1990 and 2015. This rather modest target constitutes part of the first millennium development goal, which also calls for halving the proportion of people living in poverty and achieving full employment. However, the effort to meet the hunger target has swerved off track, and the world is getting farther and farther away from realizing this objective. The goal of halving hunger by 2015 can still be achieved, but business as usual will not be enough. What is needed is business as unusual: a smarter, more innovative, better focused, and cost-effective approach to reducing hunger.

Still Hungry in America 2018-03-01

discusses the causes of hunger and famine in both developed and developing countries and some of the ways of dealing with these problems.

Halving Hunger 2010-01-01

Every year, millions of the rural poor suffer from predictable and preventable seasonal hunger. This hunger is less dramatic but no less damaging than the starvation associated with famines, wars, and natural disasters. Seasons of hunger explores why the world does not react to a crisis that we know will continue year after year. Seasonal hunger is caused by annual cycles of shrinking food stocks, rising prices, and lack of income. This hidden hunger pushes millions of children to the brink of starvation every year, permanently stunting their physical and cognitive development, weakening their immune systems, and opening the door for killer diseases. Action against hunger argues that ending seasonal hunger could save millions of young lives and is key to achieving the millennium development goals. This book documents seasonal hunger in four countries: India, Malawi, Mali, and Myanmar, including personal stories and country-wide data which shows the magnitude of the problem. The authors also find encouraging examples of interventions designed to address seasonality, initiatives led by

governments donors and ngos and poor people themselves and propose a package of advocacy messages that could contribute to the global eradication of seasonal hunger this book will be a valuable resource for journalists policy makers ngo members and students of development studies

Famine and Hunger 1992

hunger and markets is the third volume of the un world food programme s world hunger series created to help promote a better understanding of the choices confronting leaders as they work to fight hunger it appears at a crucial time with food prices at high levels a severe global financial crisis and vulnerable households around the world endangering their future health education and productivity by reducing both the quality and the quantity of their food intake hunger and markets explores the complex and multifaceted interactions between the availability of and access to food and the operations of markets the structure and dynamics of food markets and the threats and opportunities markets generate are crucial for the access to food for billions of people markets are also critical in averting or mitigating food shortages and hunger by adjusting to shocks reducing vulnerability and coping with crises whether markets help or harm the hungry poor is a function of markets institutions infrastructure and policies this volume analyzes the workings of markets in order to identify the sources of market failures in addressing hunger and malnutrition and to highlight the ways in which they can be improved the report sets out the ways in which programme design and policy formulation can build on the strengths of markets to prevent possible negative effects and will be essential reading for all those involved in the fight against world hunger published with world food programme

Seasons of Hunger 2008-09-20

why does hunger persist in a world of plenty ending hunger worldwide challenges the naive notion that everyone wants hunger to end arguing that the powerful care but not enough to make a difference george kent argues that the central focus in overcoming hunger should be on building stronger communities it is these communities which can provide mutual support to ensure that people don t go hungry kent demonstrates that there is not a shortage of food but of what amartya sen terms opportunities and that developing tight knit communities will lead to more opportunities for the hungry and undernourished ending hunger worldwide challenges dominant market led solutions and will be essential reading for activists ngo workers and development students looking for a fresh perspective

Hunger and Malnutrition in the United States 1968

this publication discusses the international zero hunger agenda in light of the achievements of the fome zero programme in brazil it revisits successful initiatives and discusses current actions while also critically assessing new and growing challenges to the global food security agenda obesity and climate change bringing together contributions from international experts the book charts a path for translating political will into political action the example of brazil and the country s fome zero programme have shown that a comprehensive approach to hunger based on a multisectoral social protection agenda and strong political leadership is the key to success building on this experience the zero hunger challenge launched by the un

in 2012 has mobilized an unprecedented global commitment to end hunger worldwide five of the 17 sustainable development goals of the 2030 agenda address this issue tackled together these goals can end hunger eliminate all forms of malnutrition and build inclusive and sustainable food systems indeed the goals will have to be met if countries are to eradicate poverty and pave the way to long term sustainable growth time is passing and the current disturbing world hunger figures call for renewed efforts our present actions will be decisive in achieving a more equitable and sustainable world this book provides an opportunity to recall the achievements realized so far and inspire our future efforts

Effective Uses of Agricultural Abundance for Hunger Relief *1984*

where are all the bodies political institutions are populated by living breathing human beings who eat sleep gesture desire and suffer and yet participants of the political realm are often depicted as disembodied minds detached and distinct from their corporeal existence amanda machin considers six embodied modes of democratic politics representation deliberation disagreement protest occupation and counsel drawing on diverse thinkers such as maurice merleau ponty michael polanyi simone de beauvoir donna haraway and judith butler she offers an absorbing illustration of the ways human bodies are not only the disciplined objects of politics but the generative subjects of democracy

Role of Educational Institutions in Helping to Alleviate World Hunger *1984*

food insecurity poses one of the most pressing development and human security challenges in the world in feeding the hungry michelle jurkovich examines the social and normative environments in which international anti hunger organizations are working and argues that despite international law ascribing responsibility to national governments to ensure the right to food of their citizens there is no shared social consensus on who ought to do what to solve the hunger problem drawing on interviews with staff at top international anti hunger organizations as well as archival research at the united nations food and agriculture organization the uk national archives and the u s national archives jurkovich provides a new analytic model of transnational advocacy in investigating advocacy around a critical economic and social right the right to food jurkovich challenges existing understandings of the relationships among human rights norms and laws most important feeding the hungry provides an expanded conceptual tool kit with which we can examine and understand the social and moral forces at play in rights advocacy

Hunger and Markets *2012-05-04*

Becoming a Subject 2002

this report planned to be released annually is about working through the real life choices and practical constraints that make it difficult to address hunger effectively it is aimed at policy makers in developing and developed countries and attempts to fill an important gap in existing reports on hunger while other reports monitor trends towards international goals or serve primarily as advocacy tools the world hunger series whs focuses on practical strategies to achieve an end to hunger it examines themes related to three types of risks social and health markets and trade and political and environmental that perpetuate hunger and stymie development each report in the new series will present state of the art thinking on that year s theme combined with an analysis of the practical challenges to implementing solutions based

on this context the reports will identify realistic steps to address hunger this edition of the report examines the relationship between hunger and learning it takes a long term perspective what happens at one stage of life affects later stages and what happens in one generation affects the next the series has four parts part one the global hunger situation surveys the current state of hunger in the world part two hunger and learning explores the two way relationship between hunger and learning through the life cycle part three is an agenda for action identifying concrete interventions to promote hunger reduction and learning finally part four a resource compendium contains technical annexes and supporting data

Hunger and Markets 2009

the millennium development goals adopted at the un millennium summit in 2000 are the world s targets for dramatically reducing extreme poverty in its many dimensions by 2015 income poverty hunger disease exclusion lack of infrastructure and shelter while promoting gender equality education health and environmental sustainability these bold goals can be met in all parts of the world if nations follow through on their commitments to work together to meet them achieving the millennium development goals offers the prospect of a more secure just and prosperous world for all the un millennium pro

World Hunger and Moral Obligation 1977

an outstanding example of psychologically driven modernist fiction knut hamsun s hunger portrays a struggling artist s descent into madness as his body and mind succumb to starvation knut hamsun s hunger first published in 1890 and hailed as the literary beginning of the twentieth century is a masterpiece of psychologically driven fiction the story of a struggling artist living on the edge of starvation the novel portrays the unnamed first person narrator s descent into paranoia despair and madness as hunger overtakes him as the protagonist loses his grip on reality hamsun brilliantly portrays the disturbing and irrational recesses of the human mind through increasingly disjointed and urgent prose

Hearing to Review Short and Long Term Costs of Hunger in America 2009

hunger for the word provides weekly reflections on the lectionary readings for year a from the standpoint of a concern for hunger and justice drawing on the insights and stories of pastors professors and other theologically grounded people who are active in anti hunger advocacy through bread for the word hunger for the word explores the scriptural witness with an openness to seeing how god s word can nourish us in the struggle to feed the hungry

The Color of Hunger 1995

hunger is one of the governing metaphors for literature in the late nineteenth and twentieth centuries beginning in the mid nineteenth century writers and critics repeatedly describe writing as a process of starvation as in the familiar type of the starving artist and high art as therejection of culinary pleasures the art of hunger aesthetic autonomy and the afterlives of

modernism argues that this metaphor offers a way of describing the contradictions of aesthetic autonomy in modernist literature and its late twentieth century heirs this book traces the emergence of a tradition of writing it calls the art of hunger from the origins of modernism to the end of the twentieth century it focuses particularly on three authors who redeploy the modernist art of hunger as a response to key moments in the history of modernist aesthetic autonomy's delegitimization samuel beckett in post vichy france paul auster in post 1968 paris and new york and j m coetzee in late apartheid south africa combining historical analysis of these literary fields with close readings of individual texts and drawing extensively on new archival research this book offers a counter history of modernism's post world war ii reception and a new theory of aesthetic autonomy as a practice of unfreedom
