The Politics of Reconstruction, 1863-1867

1965

historians overwhelmingly have blamed the demise of reconstruction on southerners persistent racism richardson argues instead that class along with race was critical to reconstruction s end she reveals a growing backlash from northerners against those who believed that inequalities should be addressed through working class action and the emergence of an american middle class that championed individual productivity and saw african americans as a threat to their prosperity

The Politics of Reconstruction, 1863-1867

1982-06-14

democracy in the united states is under threat the trump administration s attack on the legacy of the civil rights movement is undermining america s claims to be a multi racial democracy this moment of peril has worrying parallels with a previous era of american history the gains of the reconstruction era after the civil war which saw african americans given full democratic rights were totally reversed within a generation there is a serious risk that the advances of the civil rights era the second reconstruction will go the same way unless we learn from the past and appreciate that american democracy has never been a story of linear progress skilfully analysing the similarities and the differences between the 1870s and the 2010s johnson outlines a political strategy for avoiding a disastrous repetition of history in in the twilight of the second reconstruction anyone interested in seeing the trump presidency in wider historical context from students of race politics and history in the us to the interested general reader will find this book an essential and sobering guide to our past and if we re not careful our future

The Death of Reconstruction

2009-06-30

focusing on the last two years of johnson s presidency the author examines the power struggle between the chief executive and grant for control of the south and discusses the major political issues that emerged during reconstruction

The End of the Second Reconstruction

2020-06-30

this is a comprehensive examination of the use of violence by conservative southerners in the post civil war south to subvert federal reconstruction policies overthrow republican state governments restore democratic power and reestablish white racial hegemony historians have often stressed the limited and even conservative nature of federal policy in the reconstruction south however george c rable argues white southerners saw the intent and the results of that policy as revolutionary violence therefore became a counterrevolutionary instrument placing the south in a pattern familiar to students of world revolution

Johnson, Grant, and the Politics of Reconstruction

1973

revolutions and reconstructions gathers historians of the early republic the civil war era and african american and political history to consider not whether black people participated in the politics of the nineteenth century but how when and with what lasting effects collectively its authors insist that historians go beyond questioning how revolutionary the american revolution was or whether reconstruction failed and focus instead on how political change initiated by african americans and their allies constituted the rule in nineteenth century american politics not occasional and cataclysmic exceptions the essays in this groundbreaking collection cover the full range of political activity by black northerners after the revolution from cultural politics to widespread voting within a political system shaped by the rising power of slaveholders conceptualizing a new black politics contributors observe requires reorienting american politics away from black white and north south polarities and toward a new focus on migration and local or state structures other essays focus on the middle decades of the nineteenth century and demonstrate that free black politics not merely the politics of slavery was a disruptive and consequential force in american political development from the perspective of the contributors to this volume formal black politics did not begin in 1865 or with agitation by abolitionists like frederick douglass in the 1840s but rather in the revolutionary era s antislavery and citizenship activism as these essays show revolution emancipation and reconstruction are not separate eras in

u s history but rather linked and ongoing processes that began in the 1770s and continued through the nineteenth century contributors christopher james bonner kellie carter jackson andrew diemer laura f edwards van gosse sarah l h gronningsater m scott heerman dale kretz padraig riley samantha seeley james m shinn jr david waldstreicher

But There Was No Peace

2007

a new edition of the notorious carpetbagger s personal and political memoir a memoir of the ambitious life and controversial political career of louisiana governor henry clay warmoth 1842 1931 war politics and reconstruction is a firsthand account of the political and social machinations of civil war america and the war s aftermath in one of the most volatile states of the defeated confederacy an illinois native warmoth arrived in louisiana in 1864 as part of the federal occupation forces upon leaving military service in 1865 he established himself in private legal practice in new orleans taking full advantage of the chaotic times warmoth rapidly amassed fortune and influence and soon emerged as a leader of the state s republican party and in 1868 was elected governor amid an administration rife with scandal and corruption the louisiana republican party broke into warring factions warmoth survived an impeachment attempt in 1872 but a second attempt in 1873 culminated with his removal from office this fall from republican grace stemmed from his allegiance with white conservatives remnants of the old guard and staunch opponents of those republicans who sought a wider role for african americans in louisiana s changing political landscape never again to hold political office warmoth remained in his adopted louisiana enjoying the fruits of his investments in plantations and sugar refineries in 1930 the year before his death he published war politics and reconstruction a vindication of his public life and a rebuttal of his reputation as an opportunistic carpetbagger despite warmoth s obvious self serving biases the volume offers unparalleled depth of personal insight into the inner workings of reconstruction government in louisiana in the words of one of its key architects a new introduction by john c rodrigue places warmoth s memoir within the broader context of evolving perceptions and historiography of reconstruction rodrigue also offers readers a more balanced portrait of warmoth by providing supplemental information omitted or slighted by the author in his efforts to cast his actions in the most positive light

Revolutions and Reconstructions

2020-08-28

winner of the 2005 j david greenstone book award from the politics and history section of the american political science association winner of the 2005 ralph j bunche award of the american political science association winner of the 2005 v o key jr award of the southern political science association the reconstruction era marked a huge political leap for african americans who rapidly went from the status of slaves to voters and officeholders yet this hard won progress lasted only a few decades ultimately a second reconstruction associated with the civil rights movement and the voting rights act became necessary how did the first reconstruction fail so utterly setting the stage for the complete disenfranchisement of southern black voters and why did the second succeed these are among the questions richard m valelly answers in this fascinating history the fate of black enfranchisement he argues has been closely intertwined with the strengths and constraints of our political institutions valelly shows how effective biracial coalitions have been the key to success and incisively traces how and why political parties and the national courts either rewarded or discouraged the formation of coalitions revamping our understanding of american race relations the two reconstructions brilliantly explains a puzzle that lies at the heart of america s development as a political democracy

War, Politics, and Reconstruction

2006

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

Democratic Ideals and Reality

1942

between freedom and progress recovers and analyzes the global imaginings of reconstruction s partisans those who struggled over and with

reconstruction as they vied with one another to define the nature of their country after the civil war the remarkable technological and commercial transformations of the mid nineteenth century in particular steam engines telegraphs and an expanded commercial printing capacity created a constant stream of news description and storytelling from across and beyond the nation reconstruction s partisans contended with each other to make sense of this information motivated by intense political antagonism combined with a shared but contested set of ideas about freedom and progress as writers lecturers editors travelers moral reformers racists abolitionists politicians suffragists soldiers and diplomats reconstruction s partisans made competing claims about their place in the world understanding how why and when they did so helps ground our understanding of reconstruction itself a mysterious transatlantic term in its own intellectual context three factors proved pivotal to the making of reconstruction s world first from 1865 to the early 1870s the interconnected issues of how to remake the union and how to remake the south exerted a powerful hold on federal politics defining the partisan landscape and inspiring rival arguments about what was possible and what was good the daunting nature of these issues created a sense of crisis across the political spectrum with political discourse ranging in tone from combative to euphoric to apocalyptic second though domestic in nature these issues were refracted through two broadly held beliefs that the causes of freedom and progress defined history and that distinctive peoples with their own characters composed the world s population these beliefs produced a disposition to think of developments from across and beyond the united states as essentially relatable to each other encouraging an intellectual style that favored wide ranging comparisons third far from being confined to the elite this mode of thinking and arguing about the world lived and breathed in public texts that were produced and consumed on a weekly and daily basis this commercialized and politicized world of mass publishing was highly unequal in structure and content but it was also impressively vibrant and popular together these three factors made the world of reconstruction a global landscape of information argumentation and imagination that derived much of its vigor from domestic political battles

The Two Reconstructions

2009-10-02

it may be difficult to imagine that a consequential black electoral politics evolved in the united states before the civil war for as of 1860 the overwhelming majority of african americans remained in bondage

yet free black men many of them escaped slaves steadily increased their influence in electoral politics over the course of the early american republic despite efforts to disfranchise them black men voted across much of the north sometimes in numbers sufficient to swing elections in this meticulously researched book van gosse offers a sweeping reappraisal of the formative era of american democracy from the constitution s ratification through abraham lincoln s election chronicling the rise of an organized visible black politics focused on the quest for citizenship the vote and power within the free states full of untold stories and thorough examinations of political battles this book traces a first reconstruction of black political activism following emancipation in the north from portland maine and new bedford massachusetts to brooklyn and cleveland black men operated as voting blocs denouncing the notion that skin color could define citizenship

Democratic Ideals and Reality; a Study in the Politics of Reconstruction

2012-08-01

in this prize winning book thomas holt is concerned not only with the identities of the black politicians who gained power in south carolina during reconstruction but also with the question of how they functioned within the political system thus as one reviewer has commented he penetrates the superficial preoccupations over whether black politicians were venal or gullible to see whether they wielded power and influence and if they did how and to what ends and against what obstacles well crafted and well written it not only broadens our knowledge of the period but also deepens it something that recent books on reconstruction have too often failed to do michael perman american historical review a valuable study of post civilwar black leaders in a state where negro control came closest to realization during reconstruction effectively merging the techniques of quantitative analysis with those of narrative history holt shatters a number of myths and misconceptions it should be on the reading list of all students of reconstruction and nineteenth century black history william c harris journal of southern history holt presents his work modestly as a state study of reconstruction politics but this should not obscure a significant intellectual achievement and a contribution of fundamental importance demonstrating the value of social class analysis in understanding the politics of the black community jonathan m wiener journal of american history

Between Freedom and Progress

2019-11-04

examines the origins of reconstruction during the civil war explores how african american and white southerners responded to defeat and the destruction of slavery and examines the policies of reconstruction governments and the reasons for their overthrow

War, Politics and Reconstruction, Stormy Days in Louisiana, by Henry Clay Warmoth

1930

in the summer of 1868 a mere three years after the end of america s most destructive military struggle the country was at war again this time however the fight was different pitting congress and president andrew johnson against one another over which branch of the federal government should determine how the states of the confederacy should be readmitted into the union congress s dedication to determining the fate of the south led its members to choose to impeach the president then place him on trial for defying congressional authority for many the impeachment and trial of johnson symbolized the larger power struggle between the executive and legislative branches of the american government reconstruction life after the civil war examines one of the most controversial eras in u s history when the nation sought to reestablish itself in the aftermath of the civil war overcome regional politics and redefine the political social and economic realities of the nation s four million blacks

The First Reconstruction

2022-08

excerpt from the politics of iowa during the civil war and reconstruction this work is intended to be a contribution to the history of politics in iowa during the period from 1860 to 1873 and more especially through the state as a unit to throw light upon the national situation it aims to show the attitude of the state toward the national issues and the part played therein it traces the changes in political opinion and the attendant party reorganizations thus is followed the solidarity of the republican party the shifting policy of the democracy the question of a union party with the attendant third party fusion

schemes to the culmination of the reconstruction issues in the liberal movement since the particular field is unworked it has seemed best to follow in the main the chronological method of treatment the study is the outgrowth of investigation into the politics of the northern states during the period of the civil war and reconstruction being carried on by professor william a dunning of columbia university in the preparation of this work the author is indebted to professor dunning not only for his inspiration in its writing but for his careful reading and revision of the manuscript special mention is due mr fred k deming sometime student of the writer for his aid rendered in the gathering of data the writer himself is responsible for the many shortcomings of the work about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Black Over White

1979

Political Reconstruction

1946

scholars of reconstruction have generally described republican party factional conflicts in racial terms as if the radical agenda evoked unified black support as michael w fitzgerald shows in the first major study of black popular politics in the urban south in the years surrounding the civil war that depiction oversimplifies a contentious and often overlooked intraracial dynamic republican political power he argues heightened divisions within the african american community divisions that were ultimately a major factor in the failure of reconstruction focusing on mobile the confederacy s fourth largest city fitzgerald traces how the rivalry between longtime black residents and destitute freedmen fleeing the countryside yielded a startlingly antagonistic political scene he demonstrates that the republican factionalism that helped doom reconstruction went beyond competing cliques of white officeholders boldly challenging reigning theories about the nature of post civil war politics urban emancipation will spark historical debate for years to come

America's Reconstruction

1995

remembered as the great war governor who led the state of indiana during the civil war oliver p morton has always been a controversial figure his supporters praised him as a statesman who helped abraham lincoln save the union while his critics blasted him as a ruthless tyrant who abused the power of his office many of his contemporaries and some historians saw him as a partisan politician and an opportunist who shifted his positions to maintain power later generations treated governor morton as either a hero or a villain and generally forgot about his postwar career as a radical republican leader in the u s senate in this first full biography of morton to be published in over a century a james fuller offers a groundbreaking new interpretation of indiana s most significant political leader in the nineteenth century overturning traditional views fuller argues that morton s nationalist ideology motivated him throughout his career and that the hoosier leader held consistently to the ideas of freedom union power and party those core principles drove morton s politics and actions including his support for indiana soldiers his fight against the democrats in the state legislature and his twenty two months of one man rule a period in which his opponents accused him

of being a virtual dictator his principles also framed his struggle against the disloyal copperheads who tried to assassinate him and whose leaders he helped bring to justice in the indianapolis treason trials fuller also restores the historical significance of morton s long neglected career as a reconstruction senator seeing reconstruction as a continuation of the civil war morton became a leading radical republican who championed racial equality he continually waved the bloody shirt reminding voters that the democrats had caused the rebellion morton supported the civil rights of african americans and fought against the democrats and the ku klux klan he enjoyed widespread support for the presidency in 1876 but when his bid for the republican nomination came up short he helped decide the disputed election for rutherford b hayes when morton died in 1877 reconstruction died with him symbolically marking the end of an era in the decades after his death hoosiers built monuments to morton remembering him in ways that reflected their own times keeping his controversial legacy alive in historical memory

Reconstruction

2009

presents an overview of the civil war including its underlying causes decisive battles famous personalities and reconstruction

The Politics of Iowa During the Civil War and Reconstruction

Democratic Ideals and Reality

1947

americans ideas about constitutional liberty played a crucial role in the history of reconstruction they provided the basis for the republican program of equal rights ironically they also set the limits to that program and reduced the prospects for its success americans were as concerned with preserving the constitution as they were with changing it to protect liberty and equal rights these two commitments were in profound tension the question was how one could change the constitutional system to fulfill the promise of the declaration of independence to entrench a republic dedicated to liberty instead of slavery and yet preserve the essentials of federalism and local democracy almost 150 years later we still struggle with these problems michael les benedict from the introduction historians and legal scholars continue to confront the failure of reconstruction exploring the interaction of pervasive racism with widespread commitments to freedom and equality in this important book one of america s leading historians confronts the constitutional politics of the period from the end of the civil war until 1877 benedict updates ten of his classic essays that explore the way republicans tried to replace the slaveholding republic with a nation dedicated to freedom and equality of basic legal and political rights and how americans constitutional commitments and those of republicans themselves limited reform expertly bridging legal political party history the essays explore the fate of the thirteenth fourteenth and fifteenth amendments as well as the struggle between president and congress over the course of reconstruction brought together for the first time with a new introduction and revised to reflect emerging scholarship the essays are essential points of departure for students and scholars in history law and political science

The Politics of Iowa During the Civil War and Reconstruction (Classic Reprint)

2016-09-02

in the election of 1872 the conflict between president u s grant and horace greeley has been typically understood as a battle for the soul of the ruling republican party in this innovative study andrew slap argues

forcefully that the campaign was more than a narrow struggle between party elites and a class based radical reform movement the election he demonstrates had broad consequences in their opposition to widespread federal corruption greeley republicans unintentionally doomed reconstruction of any kind even as they lost the election based on close readings of newspapers party documents and other primary sources slap confronts one of the major questions in american political history how and why did reconstruction come to an end his focus on the unintended consequences of liberal republican politics is a provocative contribution to this important debate

Democratic Ideals and Reality; A Study in the Politics of Reconstruction - Scholar's Choice Edition

2015-02-12

excerpt from parliament and reconstruction a plea and a plan since the following pages were written we have seen glasgow and belfast held by armed forces as though they were bridge heads on the rhine the affairs of london have been more dislocated than by any series of the air raids north and south east and west there are ominous mutterings and rumblings a reaction from the strain of the war one sapient public adviser assures us is the cause another equally intelligent tells us it is all the work of a comparatively few paid agitators one has to believe that the readers of the daily press accept such explanations and one has to believe this and sad and disheartened wonder how the scales can be removed from eyes so blind the stoppers from ears so deaf have not the signs been made manifest for long years past was the message of the slum undecipherable had the police court the asylum the workhouse no voice could the ever growing acceptance not confined to manual labour of state theories subversive of our present order convey no lesson had those responsible for the management and control of our industrial system made a generous response and more important a willing and sympathetic response to the demand of labour for a fairer share it would almost appear that those upon whom these questions make no imperative demand for answers answers open and honest and after self interrogation are ignorant that rights of property are social products they are not established by natural law questioned by those upon whom the corresponding duties fall they are to be vindicated only by their justice about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books
