The Rotarian: April 2014 2014-02-27 25 35 numero tokyo landscape design the magazine provides timely information on built landscapes and new techniques for ecologically sensitive planning and design with photographs and graphics in asia and all over the world useful for landscape architects or garden designers and housing building city sevlal constructors monument sculpture etc

Numero TOKYO 2014 4 2014-12-27 LANDSCAPE DESIGN No.95 2014-11-22 psoriasis is the most prevalent autoimmune disease in the u s 125 million people worldwide have psoriasis commonly misunderstood and interpreted as a cosmetic problem psoriasis is a complex and potentially debilitating disease nearly 60 of people with psoriasis reported their disease to be a large problem in their everyday life this issue of dermatologic clinics devoted exclusively to psoriasis is edited by two leaders of the international psoriasis council dr alan menter and dr chris griffiths topics include genetics of psoriasis immunopathogenesis of psoriasis phenotypical expressions of psoriasis psoriasis as a systemic disease with multiple comorbidities outcomes measures in the assessment of psoriasis in clinical practice and trials update on topical therapies for mild to moderate psoriasis phototherapy and photochemotherapy puva for psoriasis current and future oral systemic therapies for psoriasis current biological therapies for psoriasis future biological therapies for psoriasis psoriatic arthritis for the dermatologist pharmacogenomics and the future of psoriasis therapies this information that goes to the heart of clinical practice is equally appropriate beyond dermatologists for internal medicine clinicians primary care physicians bone joint specialists hematologists oncologists and researchers in genetic targeted therapy development

Psoriasis: Advances in Knowledge and Care, An Issue of Dermatologic Clinics, 2016-08-31 editors kimberly brown and celia chao and authors review the latest in melanoma articles will include epidemiology risk factors prevention and early detection work up and staging of malignant melanoma principles of surgical treatment of malignant melanoma surviving cutaneous melanoma locoregional therapies melanoma vaccines the role of radiation therapy in melanoma systemic therapy in melanoma unusual presentations of melanoma surgical treatment options for stage iv melanoma head and neck melanoma melanoma in non caucasian populations and more

Melanoma, An Issue of Surgical Clinics, 2015-06-03 the essential resource for aspiring and professional editors whether you are a student of the craft or a working editor you need the complete canadian book editor from building and managing author relationships through acquiring and developing manuscripts to every level of text editing and proofing for print and ebooks editors play integral roles in the operations of a book publishing house in the complete canadian book editor veteran editor and professor leslie vermeer sets out both the concepts and the processes that an effective editor must command dr vermeer guides aspiring editors in presenting themselves successfully to employers and clients and working editors will recognize the voice of a mentor in her advice about career advancement editors at all levels along with authors and self publishers will find in the complete canadian book editor all of the step by step editorial tools they need to take projects from promising beginnings to their full potential with exercises throughout the complete canadian book editor reinforces key concepts and builds your skills as an expert editor topics include manuscript acquisition and book contracts editorial stages from development to proofreading design and production including digital workflow what every editor needs to know about marketing the state of book publishing in canada today the future of publishing and why editors are more important than ever before

The Complete Canadian Book Editor 2014-11-22 sports rehabilitation is a multi disciplinary approach to treat injuries sustained through sports participation so the

athlete can regain normal pain free mobility the primary goal is to return to pre injury activities whether the athlete is a professional amateur or casual player articles to include acl knee rehabilitation foot intrinsics and balance hamstring rehabilitation in runners rehabilitation of the throwing athlete concussion rehabilitation and many more

Sports Rehabilitation, An Issue of Clinics in Sports Medicine, 2014-11-22 this issue of hematology oncology clinics of north america devoted to multiple myeloma is edited by dr kenneth c anderson articles in this issue include monoclonal gammopathy of undetermined significance and smoldering multiple myeloma diagnosis and risk stratification in myeloma treatment of newly diagnosed transplant eligible patients treatment of newly diagnosed transplant ineligible patients treatment of relapsed refractory myeloma maintenance therapy novel targeted therapies novel immune based therapies allotransplantation in myeloma and waldenstrom s macroglobulinemia

Multiple Myeloma, An Issue of Hematology/Oncology Clinics, 2015-01-01 pediatric primary care provides a unique opportunity to tackle child abuse and neglect in the united states in particular primary care is a well established system and most children have multiple visits especially in the first few years there is typically a very good relationship between parents and health professionals who are respected experts on children the interested pediatrician thus has a remarkable entrée into the workings of a family its shortcomings and its strengths with some knowledge and skill pediatricians can play a pivotal role even in a few strategic minutes we know however that some professionals feel very uncomfortable becoming involved in this unpleasant area and may be deterred from taking any action understandable as this may be it can jeopardize a child s health and safety hopefully this issue of pediatric clinics of north america will help make this work a bit easier albeit not easy with training and support pediatricians can equip themselves to be competent and more comfortable addressing child maltreatment aside from the possible forensic implications the heart of this work is primarily about helping families take adequate or good care of their children indeed helping address child abuse and neglect also helps promote children s health development and safety and it is central to the rich mandate of pediatrics

Child Maltreatment, An Issue of Pediatric Clinics, E-Book 2013-10-15 editors robert sawyer and tracy hedrick and authors review the latest in surgical infections articles will include bloodstream infections and central line associated bloodstream infections surgical intervention for thoracic infections intra abdominal infections clostridium difficile infection urinary tract infections surgical site infections prosthetic joint infections resistant pathogens fungi and viruses infection control in the intensive care unit pneumonia differences between murine and human sepsis of the intestinal microbiome and the emerging pathobiome advancing technologies for the diagnosis and management of infections upcoming rules and benchmarks affecting the monitoring and payment for surgical infections and more

Surgical Infections, An Issue of Surgical Clinics, 2014-11-22 this issue of clinics in sports medicine focuses on anatomy and biomechanics and includes exam and imagine surgical timing and covers a variety of conditions internal impingement multi directional instability bone loss revision surgery posterior instability and a variety of other clinical conditions are thoroughly addressed in addition there are also chapters on both contact and non contact athletes instability in pediatric patients and rehabilitation

Shoulder Instability in the Athlete, An Issue of Clinics in Sports Medicine 2021-03-18 this issue of surgical oncology clinics of north america devoted to imaging in oncology is edited by dr vijay khatri articles in this issue include imaging of central nervous tumors role of imaging in head and neck malignancies imaging of thoracic cavity tumor diagnostic imaging of hepatobiliary malignancies recent advances in genito urinary tract tumors current status of imaging for adrenal glands radiology of soft tissue tumors image guided interventions in oncology imaging of pancreatic neoplasms imaging of primary malignant tumors of peritoneal and retroperitoneal origin breast tumor imaging and application of intraoperative imaging in oncology

Imaging in Oncology, An Issue of Surgical Oncology Clinics of North America, 2014-11-22 dame anna wintour might be one of the best known and most

successful journalists on the planet but it wasn't always like that when she started out on vogue she was often so miserable she had to phone her husband for help this is just one of countless fascinating tidbits in this zippy story of dizzying fortune out of this world fashion ingenuity passion sex and power and this being fashion some intense bitchiness too started as a gossip magazine for snobbish new yorkers in 1892 vogue is now one of the most recognisable brands in the world spanning london new york and paris this is a high speed fun read full of fascinating though not always likeable people daily mail glossy is a story of more than a magazine it is a story of passion and power dizzying fortune and out of this world fashion of ingenuity and opportunism frivolity and malice this is the definitive story of vogue vogue magazine started like so many great things do in the spare room of someone's house but unlike other such makeshift projects that flare up then fizzle away vogue burnt itself onto our cultural consciousness today 128 years later vogue spans 22 countries has an international print readership upwards of 12 million and nets over 67 million monthly online users uncontested market leader for a century it is one of the most recognisable brands in the world and a multi million dollar money making machine it is not just a fashion magazine it is the establishment but what and more importantly who made vogue such an enduring success glossy will answer this question and more by tracing the previously untold history of the magazine from its inception as a new york gossip rag to the sleek corporate behemoth we know now this will be a biography of vogue in every sense of the word taking the reader through three centuries two world wars plunging failures and blinding successes as it charts the story of the magazine and those who ran it

Glossy 2014-11-22 this issue provides a glimpse into how pain can be assessed and managed by several medical disciplines and approaches it covers classical and conventional techniques as well as innovative techniques

Pain Management, An Issue of Neurosurgery Clinics of North America, 2014-12-26 national health statistics indicate that pediatric ear nose and throat disorders remain among the primary reasons children visit a physician with ear infections ranking as the number one reason from earaches to choking hazards from nosebleeds to speech irregularities children can present with a variety of problems that cause concern to parents and caregivers who want prompt diagnosis and treatment the presentation of topics in this issue is clinically appropriate for otolaryngologists pediatricians allergy specialists and family physicians topics in this issue of otolaryngologic clinics include hearing screening and hearing loss acute otitis media chronic adenotonsillitis pediatric dysphagia lymphadenopathy rhinosinusitis facial trauma sialadenitis behavior and otolaryngology stridor otolaryngologic management of severe neurodevelopmental delay pediatric craniofacial problems

Common ENT Disorders in Children, An Issue of Otolaryngologic Clinics of North America, 2014-12-24 central neurocytoma is a tumor of young adults composed of uniform round cells with neuronal differentiation typically occurring in the lateral ventricles in the region of the foramen of monro neurocytomas is a hot topic in neuro oncology especially with modern developments of radiation and novel chemotherapy agents

Central Neurocytomas, An Issue of Neurosurgery Clinics of North America, 2014-09-08 some common traumatic injuries in athletes include joint dislocations sprains muscle strains broken bones tendon inflammation and ligament tears the most common fracture injury in the athletic population occurs in the fingers articles included in this issue are the challenges of treating athletes sport specific injuries wrist ligament injuries scaphoid fractures carpal fractures other than scaphoid thumb ucl and rcl injuries ulnar sided wrist pain in the athlete and many more

Sports Hand and Wrist Injuries, An Issue of Clinics in Sports Medicine, E-Book 2013-10-15 this issue of surgical oncology clinics of north america is devoted to breast cancer and is edited by lisa newman md of the university of michigan expert authors in this issue review this topic in articles such as applications for breast mri lobular neoplasia epidemiology of breast cancer percutaneous ablation of breast tumors triple negative breast cancer and the basal breast cancer subtype molecular profiling of breast cancer surgical leadership and standardization of multidisciplinary breast cancer care neoadjuvant primary systemic therapy for breast cancer management of the clinically node negative axilla in patients with primary and locally recurrent breast cancer management of the axilla in patients with node positive

breast cancer prophylactic bilateral mastectomy and contralateral prophylactic mastectomy advances in reconstruction of mastectomy and lumpectomy defects nipple sparing mastectomy and breast cancer disparities

Breast Cancer, An Issue of Surgical Oncology Clinics of North America, 2019-11-05 the scope of use of local anesthetics in procedures in plastic surgery is covered in this issue of clinics in plastic surgery discussion centers on plastic surgeons in private practice in ambulatory facilities and those scheduling time for or in hospital facilities using local anesthetics while accommodating patient comfort and absence of side effects post general anesthesia presented in this publication are the most common plastic surgeries that can be done under local anesthesia each with a discussion of the optimal anesthetic method of administration and dosage video of the procedure or portion of the procedure as applicable accompanies the techniques along with a surgical case the goal of this issue is to provide a concise reference for surgeons planning surgeries to review and perhaps adapt currently used methods with this latest information on local anesthetics surgical technique is provided in detail with full analysis of patient selection and planning complications and post procedure care contents include complications basic science of locals skin grafts and flaps peripheral nerve foot surgery breast surgery liposuction hand trauma oculoplastic surgery ear surgery hair transplantation among others

Local Anesthesia for Plastic Surgery, An Issue of Clinics in Plastic Surgery 2017-05-30 this book analyzes the constraints on press freedom and the ways in which independent reporting and reporters are at risk in contemporary asia to provide a barometer of democratic development in the region based on in depth country case studies written by academics and journalists and some who straddle both professions from across the region this book explores the roles of mainstream and online media and how they are subject to abuse by the state and vested interests specific country chapters provide up to date information on bangladesh kashmir malaysia myanmar nepal pakistan sri lanka taiwan thailand and vietnam as well as on growing populist and nationalist challenges to media freedom in the philippines india indonesia and japan the book includes a theoretical chapter pulling together trends and common constraints facing newsrooms across asia and a regional overview on the impact of social media three chapters on china provide insights into the country s tightening information environment under president xi jinping moreover the legal environment of the media political and external pressures economic considerations audience support and journalists standards and ethics are explored as an international and interdisciplinary study this book will appeal to undergraduates graduates and scholars engaged in human rights media studies democratization authoritarianism and asian studies as well as asia specialists journalists legal scholars historians and political scientists

Vadophil 2013-10-28 viewing lesions using a dermatoscope helps the dermatologist distinguish between benign and malignant lesions it is particularly useful in the early diagnosis of melanoma which is the fastest growing cancer in the us and worldwide this issue of the dermatologic clinics issue all of the important topics in dermoscopy including differentiation of lesions lesions in the young and older populations and dermoscopy in general dermatology

Editing for the Digital Age 2014-12-27 dr michael pinsky has assembled an expert team of authors on the topic of hemodynamic monitoring articles topics include

the interface between monitoring and physiology at the bedside defining goals of resuscitation in the critically ill minimally invasive hemodynamic monitoring bedside ultrasound for the intensivist invasive hemodynamic monitoring functional hemodynamic monitoring using what you get dynamic physiological signatures of critical illness and effect of organizational issues on resuscitation effectiveness

Dermoscopy, an Issue of Dermatologic Clinics 2014-09-26 this issue devoted to esophageal function testing highlights these tests that are complimentary to endoscopy and should be considered after endoscopy is performed in fact a prerequisite for performing many of these studies is a negative endoscopy and thus the endoscopist should be well informed regarding the indication and utility of these tests additionally some of these newer technologies require endoscopy to be performed during the study as the placement or positioning of the measurement tool will require endoscopic landmarks or direct placement there have been major advances in most of these older techniques and new novel measurement paradigms have been created that allow for a more visual and accurate depiction of physiologic and anatomic data these technologies have evolved to be more akin to an imaging technique and thus the visual display and data acquisition is much more intuitive and easier to teach to trainees this review would be of the utmost importance to readers of gi endoscopy clinics

Advances in Hemodynamic Monitoring, An Issue of Critical Care Clinics, 2013-10-28 this issue of the surgical oncology clinics of north america guest edited by dr william g cance is devoted to translational cancer research for surgeons translational cancer research aims to move bench research to the bedside by applying basic science toward potential therapies this issue will present the concepts of translational research and development of targeted therapeutics and its implications for surgeons it will show clinical applications for surgeons regarding sarcoma gist melanoma colorectal cancer breast cancer and endocrine cancer

Esophageal Function Testing, An Issue of Gastrointestinal Endoscopy Clinics, 2014-11-22 lower extremity complex trauma and complications an issue of clinics in podiatric medicine and surgery

Translational Cancer Research for Surgeons, An Issue of Surgical Oncology Clinics 2014-12-27 with implant dentistry comes potential complications this issue is devoted uncovering and treating these complications articles will include use of cbct to detect early implant failure neurosensory disturbance after dental implants peri implantitis risk factors for implant failure complications after implant placement complications of sinus lift for implant placement complications of implant retained prosthesis esthetic failure prosthetic failure implant failure after immediate placement biologic markers in failing implant and more

Lower Extremity Complex Trauma and Complications, An Issue of Clinics in Podiatric Medicine and Surgery, 2014-12-24 this issue of surgical oncology clinics of north america edited by dr lawrence wagman is devoted to hepatocellular cancer cholangiocarcinoma and metastatic tumors of the liver articles in this issue include epidemiology of hepatomas risk modeling disease prevalence outcome from treatment imaging resection techniques ablation techniques complications of interventions trans arterial chemo embolization tace continuous hepatic artery infusion chai selective interstitial radiation therapy sirt and external beam radiation therapy ebrt systemic chemotherapy of hcc and cholangiocarcinoma and systemic chemotherapy and crc metastases

Complications in Implant Dentistry, An Issue of Dental Clinics of North America, E-Book 2014-10-17 peripheral vascular disease pvd is a slow and progressive circulation disorder it may involve disease in any of the blood vessels outside of the heart and diseases of the lymph vessels arteries veins or lymphatic vessels this issue of interventional cardiology clinics examines the epidemiology diagnosis and treatment of this pandemic disease

Hepatocellular Cancer, Cholangiocarcinoma, and Metastatic Tumors of the Liver, An Issue of Surgical Oncology Clinics of North America, 2014-08-12 editor robert sheridan and authors review the latest in management of burns articles will include reflection evolution of the field over 50 years acute burn procedures and operations special injuries and illnesses initial evaluation and fluid resuscitation critical care of burns biology and principles of scar management and burn reconstruction management of common post burn deformities burn recovery physical and emotional rehabilitation anesthesia and pain control for burns outpatient

burn management measuring burn outcomes burn care in disasters and austere settings on the horizon research priorities for the next decade and more

Peripheral Vascular Disease, An Issue of Interventional Cardiology Clinics 2013-10-28 dr freeman has organized his issue address the continuum between acute and chronic pancreatitis necrosis and pseudocysts and the expanding role of endoscopic diagnosis and therapy as a result there are comprehensive articles devoted to role of eus in the diagnosis of acute and chronic pancreatitis ercp for acute biliary pancreatitis prevention of post ercp pancreatitis endoscopic therapy of necrotizing pancreatitis and pseudocysts endoscopic therapy for acute recurrent pancreatitis endoscopic therapy for chronic pancreatitis ercp for biliary strictures associated with chronic pancreatitis eus for pancreatic ductal access and drainage endoscopic therapy for pancreatic duct leaks and disruptions autoimmune pancreatitis role of endoscopy in diagnosis and treatment and palliation of pancreatic ductal obstruction in pancreatic cancer

Management of Burns, An Issue of Surgical Clinics, 2014-09-08 dr henry lim renown for expertise and research in photodermatology leads this issue of dermatologic clinics photodermatology in this issue addresses dermatoses brought on or accelerated by light as well as light forms for dermatology therapies photodermatology is used to diagnosis and treat many common conditions that bring patients to the dermatologist topics include introduction to photobiology evaluation of patients with photodermatologic conditions photoimmunology photoaging photocarcinogenesis polymorphous light eruption pmle actinic prurigo hydroa vacciniforme and solar urticaria chronic actinic dermatitis drug induced photosensitivity cutaneous porphyrias photoaggravated dermatoses ultraviolet uv based therapy photodynamic therapy photoprotection dr lim works with one his residents so yeon paek as his co editor on this issue

Endoscopy in the Diagnosis and Management of Acute and Chronic Pancreatitis, An Issue of Gastrointestinal Endoscopy Clinics 2014-11-22 this issue of dental clinics edited by lisa a thompson and leonard j brennan focuses on geriatric dentistry articles include our current geriatric population demographic and oral health care utilization physiology of aging of older adults systemic and oral health considerations treatment planning considerations in older adults oral health disparity in older adults dental decay and tooth loss oral health disparities in older adults oral bacteria inflammation and aspiration pneumonia salivary function and xerostomia and the implications of polypharmacy in elderly systemic and oral health cognitive impairment in older adults and oral health considerations treatment and management integrating oral health into the interdisciplinary health sciences curriculum innovations in dental care delivery for the older adult and more

Photodermatology, An Issue of Dermatologic Clinics, 2014-10-28 this issue of critical care clinics focuses on neurocritical care and covers topics such as the evolution of neurocritical care update in management of acute ischemic stroke intracerebral hemorrhage subarachnoid treatment intracranial pressure monitoring and management of intracranial hypertension status epilepticus brain resuscitation and prognosis after cardiac arrest neuromuscular complications of critical illness adverse neurological effects of commonly used icu medications and brain death and management of a potential organ donor

Geriatric Dentistry, An Issue of Dental Clinics of North America, 2014-09-08 this issue of pet clinics examines pet ct imaging in tracers beyond fdg article include standardization and quantification in pet ct imaging tracers beyond fdg 18f naf pet ct imaging 18f naf pet ct imaging in pediatrics choline pet ct imaging for the head and neck thorax abdomen and pelvis dopa pet ct imaging for the head and neck thorax abdomen and pelvis 68 gassrts pet ct imaging for the head and neck thorax abdomen and pelvis flt pet ct imaging for the head and neck thorax abdomen and pelvis hypoxia tracers pet mri tracers beyond fdg current status and future aspects pet ct normal variations effect of novel quantitative approaches and more

Neurocritical Care, An Issue of Critical Care Clinics, 2013-10-15 this issue of clinics in podiatric medicine and surgery guest edited by dr patrick deheer focuses on pediatric foot deformities topics included are lower extremity pediatric history and physical examination pediatric flatfoot deformity vertical talus the in toeing child the ponseti method for clubfoot the neglected under corrected and overcorrected clubfoot and pediatric metatarsal deformities

PET/CT Imaging in Tracers Beyond FDG, An Issue of PET Clinics, 2014-12-27 part ii of the important issue on contribution of fdg to modern medicine articles will

include fdg in infectious inflammatory diseases fdg in cardiovascular disease assesment of treatment response using pet pet based chemotherapy response assesment pet based radiation therapy planning pet based interventional radiology pet mri evolving and upcoming applications of fdg pet in medicine and more

Pediatric Foot Deformities, An Issue of Clinics in Podiatric Medicine and Surgery 2014-09-08 dr roy soetikno and dr tonya kaltenbach are the editors for this issue of gastrointestinal endoscopy clinics of north america which is devoted to the improved detection and management of early neoplasia in inflammatory bowel disease an important aspect of dr soetikno s outstanding career has been the bridging of endoscopic methods between japan and the united states endoscopists in japan have a better record of detecting subtle flat gi lesions from the earliest days of endoscopy it is fair to say that japanese endoscopists have emphasized visual identification analysis and photo documentation of small gi lesions the colon has been no exception dr soetikno has incorporated these techniques which have become increasingly feasible with steady improvement in modern digital endoscopes identifying small flat premalignant lesions and early cancers in patients with colitis can be lifesaving dr soetikno and dr kaltenbach have edited an extraordinary issue of the gastrointestinal endoscopy clinics of north america devoted to teaching and promulgating these methods including an extensive photo atlas which should be an invaluable resource for all academic specialists and practicing gastroenterologists

Contribution of FDG to Modern Medicine, Part II, An Issue of PET Clinics, 2014-08-17 topics in this issue of dermatologic clinics include incidence and prevalence impact on quality of life special considerations of hyperhidrosis in children topical therapies iontophoresis botox for axillary hyperhidrosis botox for palmar plantar hyperhidrosis botox for other hyperhidrosis systemic therapies for hyperhidrosis procedural approaches endoscopic thoracic sympathectomy emerging and investigative treatments resources for patients and physicians incorporating diagnosis and treatment into clinical practice dr david pariser is editor of this publication a founding member of the international hyperhidrosis society and renown researcher and lecturer on mechanism diagnosis and treatment of hyperhidrosis dr pariser continues to investigate therapies that are effective for patients
