Multinational Land Forces and the NATO Force Structure Review

2000

since 1991 standing and mobilization forces made available by nations to nato have been steadily reduced particularly in the case of land forces equally important have been the structures nato has created into which national contributions would fall on deployment military committee mc 317 accepted by nations in 1991 provides the framework by which nato organizes its forces however the author argues that while there are arguably sufficient reaction forces to support nato ministerial guidance there are numerous weaknesses that would and have inhibited the efficient and effective deployment of land forces in crises more specifically there are insufficient deployable reaction headquarters both at the corps and component command level that would support a commander of a nato combined joint task force the continued existence of what has become atavistic practices of nations impede and inhibit the employment of multinational land forces by an allied commander the author observes that the nato force structure review offers nations an opportunity to review these dated structures organizations and practices

Military Review

1946

determines the basis for the size and composition of u s military forces planned for europe at the end of fy 1996 and the major u s military capabilities that will be affected by force reductions in europe charts and tables

Assessment of the Bottom-Up Review

1995

the department of defense dod spends over 300 billion each year to develop produce field and sustain weapons systems the u s air force over 100 billion per year dod and air force acquisitions programs often experience large cost overruns and schedule delays leading to a loss in confidence in the defense acquisition system and the people who work in it part of the dod and air force response to these problems has been to increase the number of program and technical reviews that acquisition programs must undergo this book looks specifically at the reviews that u

s air force acquisition programs are required to undergo and poses a key question can changes in the number content or sequence of reviews help air force program managers more successfully execute their programs this book concludes that unless they do it better than they are now air force and dod attempts to address poor acquisition program performance with additional reviews will fail this book makes five recommendations that together form a gold standard for conduct of reviews and if implemented and rigorously managed by air force and dod acquisition executives can increase review effectiveness and efficiency the bottom line is to help program managers successfully execute their programs

Air Reserve Forces Review

1949-10

in march 1993 secretary of defense aspin initiated a comprehensive review of the nation s defense strategy force structure modernization infrastructure and foundations he felt that a department wide review needed to be conducted from the bottom up because of the dramatic changes that have occurred in the world as a result of the end of the cold war and the dissolution of the soviet union these changes in the international security environment have fundamentally altered america s security needs thus the underlying premise of the bottom up review was that we needed to reassess all of our defense concepts plans and programs from the ground up this final report on the bottom up review provides the results of that unprecedented and collaborative effort it represents the product of hundreds of individuals labor and dedication it describes the extensive analysis that went into the review and the recommendations and decisions that emerged

Volunteer Armed Force and Selective Service, Hearing Before the Subcommittee on the Volunteer Armed Service . . . , 92-2, March 10 and 13, 1972

1972

a review of the 1993 report of the chairman joint chiefs of staff on the roles missions and functions of the armed forces identifies opportunities for eliminations reductions consolidations and realignments beyond those cited in the chairman s report also discusses obstacles that make reductions in overlapping military capabilities difficult to achieve covers 18 specific areas

Strategic Defence Review

2001-04-11

this report reviews the implementation of the army's total force policy the army has made progress in integrating the regular army army national guard and u s army reserve but budget constraints have limited implementation

The Future: Warfare, military forces and technology

1993

intermolecular and surface forces describes the role of various intermolecular and interparticle forces in determining the properties of simple systems such as gases liquids and solids with a special focus on more complex colloidal polymeric and biological systems the book provides a thorough foundation in theories and concepts of intermolecular forces allowing researchers and students to recognize which forces are important in any particular system as well as how to control these forces this third edition is expanded into three sections and contains five new chapters over the previous edition starts from the basics and builds up to more complex systems covers all aspects of intermolecular and interparticle forces both at the fundamental and applied levels multidisciplinary approach bringing together and unifying phenomena from different fields this new edition has an expanded part iii and new chapters on non equilibrium dynamic interactions and tribology friction forces

Force Structure

1995-10

this year 2017 marks the 30 year historical point for the special operations forces sof formed when congress added an amendment to the goldwater nichols reform legislation that created the united states special operations command ussocom since that time this force has been preserving strategic options for the u s and their track record is second to none for the last decade and a half we have relied heavily on sof to perform activities in support of counterterrorism operations however we must keep in mind that sof activities such as unconventional warfare uw foreign internal defense counter messaging and hostage rescue

remain equally important to countering aggression of other actors including nation states despite drawdowns of conventional forces and overseas contingencies the demand for sof remains high across the combatant commands socom and the assistant secretary for special operations and low intensity conflict clearly have a lot on their plate last year socom was assigned the responsibility for synchronizing the countering weapons of mass destruction cwmd mission from strategic command stratcom the threats that the u s faces today are ever evolving and complex and will continue to shape our special operations forces and policies for employment of those forces in thinking about the years ahead we must ask hard questions after nearly 16 years of constant war including what parts of this force are broken and what needs to be repaired quickly what adversarial nation states are advancing faster and achieving a qualitative edge over our forces and what must we do to ensure that our special operations forces are postured for the next 30 years to mitigate our most pressing national security concerns and to continue to preserve strategic options for our nation

Force Structure

1994

reports how the army determines its support force requirements and the results of its most recent process for allocating support forces known as total army analysis 2003 it also discusses the army s progress to streamline its infrastructure or institutional force structure reviews the extent to which the army s process for assessing its active and reserve support forces resulted in sufficient support force structure to meet the requirement of the two mrc scenario whether army streamlining initiatives have identified opportunities to reduce personnel resources devoted to institutional functions and the feasibility of reducing army strength

The Air Force Law Review

1998

molecular recognition also known as biorecognition is the heart of all biological interactions originating from protein stretching experiments dynamic force spectroscopy dfs allows for the extraction of detailed information on the unbinding process of biomolecular complexes it is becoming progressively more important in biochemical studies a

Optimizing U.S. Air Force and Department of Defense Review of Air Force Acquisition Programs

2009-07-29

considers the national and international ramifications of u s abm deployment and its effects on salt talks with the soviet union

The United States Air Force JAG Law Review

1970

this guide to the study and use of military history is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study it is not a work to be read and lightly tossed aside but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past

The Westminster Review

1871

many of the aircraft that form the backbone of the u s air force operational fleet are 25 years old or older a few of these will be replaced with new aircraft but many are expected to remain in service an additional 25 years or more this book provides a strategy to address the technical needs and priorities associated with the air force s aging airframe structures it includes a detailed summary of the structural status of the aging force identification of key technical issues recommendations for near term engineering and management actions and prioritized near term and long term research recommendations

Report on the Bottom-up Review

1993

this volume traces the historical roots and evolution of insurgencies and counter insurgencies in modern asia focusing on armed rebellions and use of armed forces by both western powers and indigenous states from the nineteenth century till present day the volume unravels the problematic of change continuity and addresses key questions on the nature of warfare the book looks at eight different regions of asia us

counter insurgencies in philippines the british initiative in indonesia and independent indonesia s counter insurgency against its domestic populace post world war ii malaya french and us war in vietnam british and indian counter insurgencies in north east india between the nineteenth and early twenty first century indian and sri lankan operations in sri lanka during late twentieth and early twenty first centuries british and us nato war in afghanistan from the nineteenth century till 2014 and british and us counter insurgency in iraq during the twentieth and first two decades of the twenty first centuries the volume will greatly interest scholars and researchers of modern asian history military and strategic studies politics and international relations as well as government institutions and think tanks
