Barack Obama and the Myth of a Post-Racial America *2013-10-08*

the 2008 presidential election was celebrated around the world as a seminal moment in u s political and racial history white

liberals and other progressives framed the election through the prism of change while previously acknowledged demographic changes were hastily heralded as the dawn of a post racial america however by 2011 much of the post election idealism had dissipated in the wake of an on going economic and financial crisis escalating wars in afghanistan and libya and the rise of the right wing tea party movement by placing obama in the historical context of u s race relations this volume interrogates the idealized and progressive view of american society advanced by much of the mainstream literature on obama barack obama and the myth of a post racial america takes a careful look at the historical cultural and political dimensions of race in the united states using an interdisciplinary analysis that incorporates approaches from history political science and sociology each chapter addresses controversial issues such as whether obama can be considered an african american president whether his presidency actually delivered the kind of deep rooted changes that were initially prophesised and whether obama has abandoned his core african american constituency in favour of projecting a race neutral approach designed to maintain centrist support through cutting edge critically informed and cross disciplinary analyses this collection directly addresses the dimensions of race in american society through the lens of obama s election and presidency

The Ipinions Journal 2015-03-20

anthony l hall takes aim at the global events of 2014 with a unique and refreshing perspective for example on media broadcasting terrorist propaganda as breaking news we live in a twitter age of such promiscuous indiscriminate and surreal media practices that it seems perfectly normal for our own media to be helping the enemy perpetrate psychological warfare against us what else explains the media shielding us from the epithets of racists but bombarding us with the taunts of terrorists snowboarder shaun white failing to medal at sochi olympics frankly i think its fair to say that never before in olympic history has an athlete so hyped to win gold failed to even win bronze only authoritarian regimes can govern arab countries show me an arab country governed by a democratically elected government and ill show you one that is an ungovernable mess feminist call for liberated women to ditch high heels its a reflection of the addictive high women get on heels that when theyre barefoot or wearing tennis shoes they invariably perch themselves on the balls of their feet to simulate those missing high heels have you noticed this putinization of russia putins propaganda has done such a terrific job of convincing russians that westerners are undermining their culture at home and threatening the safety of fellow russians abroad the credibility of his presidency now depends on backing up his neo stalinist words with avenging military action police in u s killing unarmed black men if i hear another political or civic leader calling for a conversation on race im going to puke because nothing will

do more to curb deadly encounters between the police and young black men than requiring the former to attach cameras to their bulletproof vests and prevailing upon the latter to obey police orders

The Unfinished Agenda of Brown v. Board of Education 2008-04-21

praise for the unfinished agenda of brown v board of education my father oliver l brown for whom brown v board of education is named was a proud member of a group of a few hundred people across the country who took risks by taking a stand for what they believed he died in 1961 just seven years after the case so he didn t live long enough to know that brown would become the foundation on which so much of this country s civil and human rights initiatives would rest brown v board became important for every citizen not just african americans it shows that the founding documents of our country provided us with sovereign rights that cannot be restricted by state and local governments that decision impacted the lives of women persons with disabilities blacks whites hispanics asians and everyone living in this country brown was significant in attacking the silence it opened up a dialogue and forced the country to take on greater responsibility we at every level had to start addressing the issue of race

in many ways once the dialogue started we finally began to understand the depths of racism this case was about gaining access to educational resources the resources were and remain where the white children are the unfinished agenda of brown v board of education is about renewing and continuing the promise of brown cheryl brown henderson president of the brown foundation for educational equity excellence and research and daughter of oliver l brown one of the thirteen plaintiffs in brown v board of education
