an introduction to the writings of helen keller many hearing people marxists included are familiar with helen keller in one of two ways either we see her as the wild child rescued from the prison of deafness and blindness through the heroic efforts of her miracle worker teacher anne sullivan or as the butt of cruel helen keller jokes neither image bears any relation to the actual politically active deaf blind woman whom that nearly mythical child became in these texts she explains how she came to revolutionary socialism after her graduation from college despite her reliance on intermediaries to communicate with the outside world comrade helen keller is fully her own person helen keller became a member of the socialist party in 1909 and by 1912 she had become a national voice for socialism and working class solidarity her articles and speeches take on a harder edge as the war machine gears up and the reformist tendency in the socialist party forced a split with its revolutionary wing we can see her calling for party unity in 1913 and then breaking publically with reformism and siding wholeheartedly with the iww in 1916 and taking up the struggle against president wilson's hypocritical war machine attn book sellers visit createspace.com 6140079 and buy this book at discounted price discount code eq8fymxg
