The Licensed Practical Nurse as Charge Nurse 1972 an essential guide throughout your nursing education and a practical resource as a practicing professional a must have resource for practical or vocational nursing students the LPN/LVN Student Nurse Handbook is the answer when it comes to nursing questions such as what does this mean why do I have to know that an engaging reader friendly writing style simplifies difficult concepts maps out core concepts and essential issues and presents them in a clear concise manner

Nursing Leadership, Management, and Professional Practice for the LPN/LVN 2021 a well written and engaging introduction to nursing education and to nursing as a profession that will promote students enthusiasm for the study and practice of nursing presents the essential personal vocational relations content taught in LPN/LVN programs in the United States and Canada including student and professional skills communication techniques nursing history ethical and legal issues introduction to the health care system and issues and trends subjects covered include caring empowerment nurse as advocate leadership management issues teamwork critical thinking and cultural diversity in nursing education and practice interactive approach to subject accomplished through case studies learning activities and personal vignettes all pages are perforated and allow case studies and other exercises to be assigned as homework and handed in

LPN/LVN Student Nurse Handbook 2003 this textbook fills a gap in education for licensed practical nurses LPN providing information specific to their own needs and concerns firstly it clarifies the leadership role of LPNs in the healthcare setting and then identifies the knowledge skills and abilities related to leadership management communication culture change and person directed care concepts it also explains the efficacy of these concepts related to the LPN care of patients in the work setting and reviews the nurse practice act NPA enacted in every US state LPNs play an essential role in the patient care team and we have to ensure they receive advanced education as practitioners in healthcare settings that reach vulnerable populations such the elderly they have been considered as the registered nurses right hand in acute care as well as many home health settings they provide basic medical and nursing care ensure the comfort of patients

discuss health care with patients and report the status of patients to registered nurses and doctors but the lpns are often expected to take on a real leadership role based on the perception that as licensed nurses they already have all the qualifications and education necessary for leadership roles however there is a gap in the education they receive and a limited body of literature dedicated to them written in honor of all lpns this educational textbook fills that gap with learning objectives review questions and scenarios it is a valuable resource for courses for undergraduate students training to be lpns
