## ***Essential Dispute Resolution***

2002

dispute avoidance is not generally on the mind of businesses and their in-house legal counsel until a dispute hits. This book deals with the prevention of disputes and their settlement through two specific methods: dispute boards and expert determination. These two methods are often used by the international business community to reduce the risk of being involved in long and complex factual disputes. Thirteen international experts share their knowledge and their experience on the impact of applicable law, contract law issues, procedural issues, and the relationship between expert determination or dispute boards on the one hand and litigation and arbitration on the other. Specific topics dealt with in the book include the challenges of expert determination in M&A transactions, expert determination by accounting firms including real-life examples as well as the 2015 ICC Dispute Board Rules, the settlement of disputes including under the FIDIC forms of contract, and recent case law on dispute boards.

theory law and practice of maritime arbitration the case of international contracts for the carriage of goods by sea  
eva litina it is estimated that over 80 of global trade by volume is carried by sea making maritime transport a  
cornerstone of the global economy most disputes in the shipping industry are settled by distinctive private arbitral  
proceedings that are best understood by a close examination of the standard form contracts that are used in  
practice and of the case law arising therefrom extrapolating insightfully from these sources the author of this book  
examines in depth the phenomenon of maritime arbitration with a specific focus on contracts for the carriage of  
goods by sea she offers the first comprehensive and comparative analysis of arbitral practice in the three  
jurisdictions where the most frequently selected maritime arbitral seats are located london new york and singapore  
an analysis of the applicable rules and relevant case law in each jurisdiction provides the basis from which a  
comparative assessment of maritime arbitral seats is achieved the book addresses the following key aspects of  
maritime arbitration maritime arbitration s definition origins theoretical underpinnings socioeconomic context and  
significance the maritime specific reasons for wide use of ad hoc versus institutional arbitration the international  
instruments governing arbitration in contracts for the carriage of goods by sea the shipping industry s pursuit of  
self regulation via standard form contracts the arbitration agreement contained in standard form charterparties  
and bills of lading maritime arbitration s unique approach to judicial review confidentiality and arbitrator  
impartiality the specific dispute resolution objectives that compel a comparative assessment of maritime arbitral  
seats and the future of maritime arbitration in light of international political financial and technological  
developments in addition to the three main maritime arbitral seats the analysis touches on maritime arbitration in  
other relevant jurisdictions such as hong kong greece japan and korea thus affording a comparison of the process  
in common and civil law jurisdictions the book concludes by considering the potential impact of the current  
international political landscape and suggesting future perspectives and research in international maritime  
arbitration an important addition to scholarship in this field of law the book s thorough assessment of the merits of  
the competing maritime arbitral seats and its specific focus on maritime disputes will prove of significant  
importance to arbitrators law firms in house counsel of shipping companies international organizations and  
arbitration institutions and associations practitioners will discover all tools necessary to examine any case before  
the main maritime arbitral seats with full awareness of each applicable legal regime and its distinguishing features
