Managing Command and Control in the Persian Gulf War 1996-09-24 during desert shield the air force built a very complicated organizational architecture to control large numbers of air sorties during the air campaign itself officers at each level of the central command air forces believed they were managing the chaos of war yet when the activities of the many significant participants are pieced together it appears that neither the planners nor lt gen charles a horner the joint force air component commander knew the details of what was happening in the air campaign or how well the campaign was going there was little appreciation of the implications of complex organizational architectures for military command and control against a smarter and more aggressive foe the system may well have failed
