Writing In InDesign CC 2014 Producing Books

2014-06-18

this is a major update for me the epub production techniques have changed quite a bit both for fixed layout and for reflowable epubs many of the changes i ve been waiting for with epub production have been implemented indesign now stands at the top of the heap for book production in general and epub production in particular you do not need to know code though understanding how html and css works will aid your conceptual understanding i was lukewarm about fxl until i realized that the new fixed layout epubs would show gradient paragraph rules gradient strokes and fills in tables and much more the only major things we re missing are justification and hyperlinked test does not work in fxl the exported epubs upload flawlessly to the ibooks store and kobo writing life finally the 21st century book publishing software we need is within our grasp there s still more to come but this version is very good

DocBook for Writers

2015-02-02

this book is an introduction to docbook aimed at technical writers rather than developers it explains how to use and install the docbook schema and transformation files and it identifies the tools required to write transform and validate docbook instructions are provided for doing this on windows mac os x and linux customized transformation style sheets are provided for creating html pdf and epub 3 output converting docbook to and from other document formats is also covered including conversion to microsoft word open xml document
