infants and children through age 4 who are at nutritional risk
wic provides nutritious foods to supplement diets nutrition
education and referrals to health care and other social
services almost half of all infants and about a quarter of all
children ages 1 4 in the u s participate in the program wic
accounts for 10 of total federal spending on food and nutrition
assistance this report describes the wic program how it works
its history program trends and the characteristics of the
population it serves it also examines current issues facing wic
focusing mainly on those with important economic
implications abstract this report addressed to the secretary of
agriculture discusses the need to improve management
effectiveness and to make better use of limited resources in
the food and nutrition service s special supplemental food
program for women infants and children wic the report
contains recommendations which are intended to help ensure
that the funds made for wic are directed first to those among
the eligible population who are the most vulnerable and thus
likely to benefit the most from wic intervention

recommendations given include targeting the most needy population groups using professional authorities to reassess wic participation standards focusing greater attention on income eligibility of participants and establishing stricter and more comprehensive participant file records dietary risk assessment in the wic program reviews methods used to determine dietary risk based on failure to meet dietary guidelines for applicants to the special supplemental nutrition program for women infants and children wic applicants to the wic program must be at nutritional risk to be eligible for program benefits although dietary risk is only one of five nutrition risk categories it is the category most commonly reported among wic applicants this book documents that nearly all low income women in the childbearing years and children 2 years and over are at risk because their diets fail to meet the recommended numbers of servings of the food guide pyramid the committee recommends that all women and children ages 2 4 years who meet the eligibility requirements based on income categorical and residency

status also be presumed to meet the requirement of nutrition risk by presuming that all who meet the categorical and income eligibility requirements are at dietary risk wic retains its potential for preventing and correcting nutrition related problems while avoiding serious misclassification errors that could lead to denial of services for eligible individuals started in 1974 the special supplemental nutrition program for women infants and children wic was designed to meet the special nutritional needs of low income pregnant breastfeeding or postpartum women infants and children up to 5 years of age who have at least one nutritional risk factor the wic program provides three main benefits supplemental foods nutrition education and referrals to health and social services since the inception of the wic program substantial changes in size and demographics of the population food supply and dietary patterns and health concerns have made it necessary to review the wic food packages proposed criteria for selecting the wic food packages proposes priority nutrients and general nutrition recommendations for the wic program
