a landmark book rolls out a bold new energy based theory of human history based on a simple yet powerful law whoever controls the world s effective energy supplies during a given energy age will inevitably dominate the economic political and cultural history of that age the innovative theory articulated in sources of power how energy forges human history parses history into four ages the foraging

agriculture coal and oil ages each defined by the dominant source of power
manfred weissenbacher tests this sweeping theory against the panorama of world
history combining formidable powers of synthesis with a specialist's deep
understanding of energy systems and technologies after proving the operation of
his law through history and into the present weissenbacher applies it to global
geopolitical trends he assesses the prospects of the various candidate technologies
to succeed oil and charts future scenarios based on the distribution of energy
reserves finally he forecasts the fates of the american and chinese empires in the
twilight of the oil age the united states as a mature superpower forced to deploy
military might to occupy oilfields in the middle east china as an emerging
superpower forced to deploy economic might to muscle in on the development of
third world oilfields
