Teaching Business, Economics and Enterprise 14-19 2019-10-02 the gcse mindset 40 activities for transforming student commitment motivation and productivity written by steve oakes and martin griffin offers a wealth of concrete practical and applicable tools designed to supercharge gcse students resilience positivity organisation and determination at

a time when gcse teaching can feel like a conveyor belt of micromanaged lessons and last ditch interventions steve and martin acclaimed authors of the a level mindset suggest a different approach underpinned by their vespa model of essential life skills vision effort systems practice and attitude these five non cognitive characteristics beat cognition hands down as predictors of academic success and in the gcse mindset steve and martin take this simple model as their starting point and present a user friendly month by month programme of activities resources and strategies that will help students break through barriers build resilience better manage their workload and ultimately release their potential both in the classroom and beyond the book s forty activities while categorised thematically under the vespa umbrella have been sequenced chronologically by month in order to better chart the student s journey through the academic year and to help them navigate the psychological terrain ahead each activity can be delivered one to one to a tutor group or to a whole cohort has been designed to take fifteen to twenty minutes to complete and has been written with a pupil audience in mind however to complement the tasks practical utility the authors also explore the underpinning research and theory including the pioneering work of angela duckworth dr steve bull and carol dweck in more detail in the introduction to each section informed by the authors collective thirty plus years of teaching and coaching this essential handbook for gcse success also suggests key coaching questions and interventions for use with pupils and includes expert guidance on how schools can implement and audit the core components and outcomes of the vespa approach in their own settings additionally and indeed pertinently in the present educational environment where empirical data is valued so highly the book features a chapter dedicated to the measurement of mindset written by guest contributors dr neil dagnall and dr andrew denovan from manchester metropolitan university they present the twenty eight item vespa questionnaire which they helped steve and martin to design and take the reader through the research process behind its origins before going on to describe how it can be used to identify areas for development and to measure the impact of interventions suitable for teachers tutors and parents who want to boost 14 to 16 year olds academic outcomes and equip them with powerful tools and techniques in preparation for further education and employment

History 16-19 1991 first published in 2010 routledge is an imprint of taylor francis an informa company

Women in veterinary epidemiology and economics 2023-06-09 there is no doubt about the importance of assessment it defines what students regard as important how they spend their time and how they come to see themselves it is a necessary part of helping them to learn this text provides background research on different aspects of assessment its purpose is to help lecturers to refresh their approach to the assessment of student learning it explores the nature of

conventional assessment such as essays and projects and also considers less widely used approaches such as self and peer assessment there are also chapters devoted to the use of it the role of external examiners and the introduction of different forms of assessment with guidelines suggestions examples of practice and activities this book will become a springboard for action discussion and even more active learning

High-Throughput Analysis 2003-12-31 learning to teach geography in the secondary school has become the widely recommended textbook for student and new teachers of geography it helps you acquire a deeper understanding of the role purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design teach and evaluate stimulating and challenging lessons it is grounded in the notion of social justice and the idea that all students are entitled to a high quality geography education the very practical dimension provides you with support structures through which you can begin to develop your own philosophy of teaching and debate key questions about the nature and purpose of the subject in school fully revised and updated in light of extensive changes to the curriculum as well as to initial teacher education the new edition considers the current debates around what we mean by geographical knowledge and what is involved in studying at masters level key chapters explore the fundamentals of teaching and learning geography why we teach and what to teach understanding and planning the curriculum effective pedagogy assessment developing and using resources fieldwork and outdoor learning values in school geography professional development intended as a core textbook and written with university and school based initial teacher education in mind learning to teach geography in the secondary school is essential reading for all those who aspire to become effective reflective teachers praise for previous editions of learning to teach geography in the secondary school this is a practical and visionary book as well as being superbly optimistic it has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere practical activities and ideas are set within a carefully worked out authoritative conceptual framework the times educational supplement this is a modern powerful relevant and comprehensive work a standard reference for many beginning teachers on geography initial teacher training courses educational review

The GCSE Mindset 2018-02-15 based on a long term qualitative study of four ordinary secondary schools and working on the interface of theory with data this book explores how schools enact rather than implement policy

Electrical and Electronic Principles and Technology 2010-08-31 against a background of controversy surrounding the teaching of history this reader gathers the current thoughts of the leading practitioners the development of school history up to the national curriculum and beyond is traced and the main issues concerning history teachers today are examined these

issues include access to history the definition of british history in a multicultural society gender and the place of history with the humanities progression and attainment are discussed as is the development of pupil s historical understanding and practical approaches to teaching history to 11 18 level pupils are explored

Learning to Teach Geography in the Secondary School 2015-05-20 reissuing works originally published between 1971 and 1994 this collection includes books which offer a broad spectrum of views on curriculum both within individual schools and the wider issues around curriculum development reform and implementation some cover the debate surrounding the establishment of the national curriculum in the uk while others are a more international in scope many of these books go beyond theory to discuss practical issues of real curriculum changes at primary or secondary level the set includes books on cross curricular topics such as citizenship and environment and also guidance careers life skills and pastoral care in schools a fantastic collection of education history with much still relevant today

How Schools Do Policy 2012 chinese students in the uk have been increasing in number for many years yet competition from other western educators and increasing investment in china s own education system has led to concern that uk institutions may soon see a decline in their market share dr reynolds addresses this issue in chinese students in uk further education by attempting to understand students experiences from their perspective beginning with an exploration of why these students choose to come and study in the uk and why they are coming at younger ages the book goes on to discuss topics such as risk technology and diversity in order to understand which factors have the greatest influence on where they

choose to study and whether they choose to remain at an institution drawing on data from two different education institutions providers of gcse a level programmes for students aged 16 18 years dr reynolds attempts to understand what these students experience during their studies how they manage new social relationships and whether upon course completion they achieved the results they desired at the outset moreover the book aims to ascertain whether the students feel in hindsight that the decision to risk investing in uk further education was right and what they might communicate about uk study to contacts in china and elsewhere the book examines what further education institutions do well and where they might improve to help develop chinese students educational experiences as such it will be essential reading for academics researchers and postgraduates in the fields of further education sociology of education international and intercultural education and mobility studies

Teaching History 2013-10-31 this book provides an account of the curricular consequences of the outcomes approach to education nvqs gnvqs etc it contains contributions from leading experts in the field and as such is likely to become the core text in this area an initial discussion of the main themes leads the reader into a discussion of key ideas and the theory behind the outcomes approach covering in addition issues concerning standards and quality areas of the curriculum covered include assessment modularization flexible learning and work based learning higher level competences and the autonomous learner it should be of interest to all concerned with the development of the curriculum ranging from school sixth forms through further and higher education to professional industrial trainers with an interest in the development of education and training in the uk
