500 1987 no other official record or group of records is as historically significant as the 1790 census of the united states the original 1790 enumerations covered the present states of connecticut delaware georgia kentucky maine maryland massachusetts new hampshire new jersey new york north carolina pennsylvania rhode island south carolina tennessee vermont and virginia unfortunately not all the schedules have survived the returns for the states of delaware georgia kentucky new jersey tennessee and virginia having been lost or destroyed possibly when the british burned the capitol at washington during the war of 1812 though there seems to be no proof for this for virginia taxpayer lists made in the years 1782 1785 have been reconstructed as replacements for the original returns in response to repeated requests from genealogists historians and patriotic societies the surviving census records were published by the bureau of the census in 1907 and 1908 the twelve states whose records were then extant are each covered by a single volume the twelve published volumes contain the names of the heads of about 400 000 families with information concerning their place of residence the size of their families and the approximate ages of the male family members the families averaging six people each comprised about 2 400 000 individuals or approximately 75 of the total population of the united states at the time

Thom's Irish Almanac and Official Directory of the United Kingdom of Great Britain and Ireland 1903 after more than 20 years of research the author was finally able to pull together more than 70 000 descendants of william morss b in the 1600s and his wife elizabeth by tracking the descendants of anthony morse of essex county ma she can identify more than 70 000 descendants many of these lines had been lost to history including a more recent one of joseph willis morse whose son founded the precursor to the magazine vanity fair in atlantic city his son had 9 sons each with large families of their own none of whom were listed in the traditional histories and so the search began browse the names of the first 6 generations of descendants of stephen morse of essex co ma more will be published in the future but books can only be so many pages volume 2 will include the story of hugo von mors the descendant of a noble flanders family and a knights templar
