prepares to sacrifice her future with Pavel when Lucca invites her to Budapest to prove she's from Mars. Jess knows she's walking into a trap but if Jess can't convince Terrans the Mars colonists are real, Lucca will destroy Jessamyn's family, her friends, and her world. The ones we save is the sixth and final book in a science fiction adventure series set in a dystopian future where colonization on Mars has survived for centuries without any contact with Earth until now. All Claire wants is to graduate early from her exclusive boarding school and get off Annabelle Island. She's not looking for romance and she's definitely not interested in Declan, the handsome new junior from Ireland. But when another student cons Claire out of a beloved retro camper, the last tie she has to her dead parents, it's game on. Declan offers to help Claire, reluctantly agrees, and sparks fly. Welcome to the Payback Society where vengeance, gothic revival architecture, and stolen kisses are always in style. Huge series sale, limited time only. Davinci's younger sister Klee has always played second fiddle to her twin Kahlo, but all of that changes when Klee decides to secretly travel back in time to save Alexander Hamilton's son Philip from dying in a duel. Unfortunately, Klee didn't read the user's manual, and soon she's risking the lives of everyone she cares about in the 21st century for the sake of Alex and Eliza's rakishly handsome and frustratingly stubborn son Philip. Some dreams deserve a second chance. Penny Wanjiru, second grade teacher and space enthusiast, no longer dreams of becoming a Mars colony astronaut. But when fate intervenes, offering her a chance to travel to Mars, she must choose between staying on Earth with her beloved ailing grandmother or risking everything to journey to the red planet. The Shadow of Mars series explores the origins of Mars colonization.
