as you begin to explore this book please keep in mind that it has been written by a professional massage therapist who has specialized in caregiving for over twenty years during the course of all those years i have learned what usually makes people ill and what it takes to get them to allow themselves to become well some of the concepts may seem a little strange or maybe a little too simple for someone who is really ill but i have drawn upon my years of experience to show the reader that because life isn t simple wellness isn t simple either i have pointed out that you are what you think you are and the implications of that thought can be staggering in its complexity as you read and try to understand the concepts contained in this book that may seem foreign to you remember that many of the things contained herein are twenty years of learning by a skeptic i didn t accept some of the

concepts easily i proved them through experience and you can too i have compiled all the knowledge i have obtained over the years into this exclusive book and all you need with this knowledge is hope and faith and through that miracles can and will happen

tapping into the total power of the universe describes in a step by step fashion how a craft and its crew members can immediately enter any place on earth or in the universe using color photos taken from one of many experiments conducted by the author the book carefully explains how a specially designed craft can be converted to a confined energy form or light form while gravity time and distance are eliminated once this occurs the author goes on to explain one can then visualize the universe below

the craft as a giant football stadium with numerous seats but in this case each seat represents a galaxy or solar system because the craft has become a confined energy form or non mass it has exited a part of our universe that is made up of condensed matter forms we call planets and stars because time gravity distance and mass have been eliminated the craft and its crew have become a non conformant to all known universal laws and can make up its own laws as desired by the crew members as a result the crew can tune in and reenter any place and time period on earth or in the universe taking up any seat they want it would be similar to turning a knob on your car radio and tuning into a preferred radio station as you read this book it will become evident how this can be accomplished
