historiography follows both sections seek to recreate at least to a degree the larger context of menno s life and activity and free him from the prejudices of the past it does so by making the case not made heretofore that menno was powerfully influenced not by the revolutionaries but by the two intellectual giants of the age martin luther and desiderius erasmus but the study also takes seriously menno s repeated assertion that he had experienced a life transforming conversion through the power of the holy spirit in early 1535 with this as background the study then investigates in a chronological sequence the key problem areas of menno scholarship that have arisen over the years it concludes with a brief assessment of his legacy
