HQ Trivia 2017-12-23

hq trivia is the hottest game what you need to know know that the questions are hard and you need a study guide you won t be able to google the answers so you need to study what else do you need to know well that is how to play are your friends taking breaks at 3 p m and 9 p m every day to gather around an iphone they re probably playing hq a recent sensation on smartphones in which they play trivia for real money the rules are simple the host is personable and the lure of a real cash prize brings hundreds of thousands of people to the table what is hq trivia hq trivia is a live trivia app that you play for real money the game goes live at 3 p m and 9 p m est on weekdays and 9 p m est on weekends the game is hosted by comedian scott

rogowsky though he occasionally has substitutes including british broadcast personality sharon carpenter what are the rules the game consists of 12 multiple choice trivia questions ranging from easy to devastatingly hard the latter have been labeled savage questions by the hosts you have roughly ten seconds to answer each question starting from when the host begins reading it hq s creators suggest this keeps the questions from being google able i ve found that they re right everyone who completes all 12 questions split the jackpot if no one wins it carries over to the next game how much money can i win when the game debuted in august jackpots were around 100 but they have since ballooned to regular games for 250 and now 1 000 every once in a while a game will go much higher including a recent set for a grand prize of 8 000 of course if you win you re likely splitting it with other winners you can cash out with a paypal account you mentioned iphones is there an android version right now hq trivia is only available on ios but it seems to be coming to android soon in a tweet the company suggested that android owners could see the game by time the holidays roll around how do i get extra lives while hq used to hand out extra lives now you seemingly only get them by referring friends give them your referral code which is identical to your username when they plug it in you ll get a second chance in your next game what s with all the memes hq has a chat on the bottom and boy is it active i mean it s really something else if you find it annoying you can swipe it away

but it's also the breeding ground for a bunch of weirdness that is where fans started calling Rogowsky Quiz Daddy and started continuously writing the phrases Dink Fam and Fish Squad worldwide neither of which I understand there's also a lot of horror in the chat too with people writing derogatory statements about all types of minority groups seemingly for no reason some people get banned but that hasn't stopped the behavior what is the Q is it related you may have recently heard of a similar game the Q which has received some buzz it's an HQ clone with fewer players for now far less charismatic hosts poorer production values and a smaller prize pool usually 500 or less but it's on both iOS and Android so it planted a flag on the trivia app landscape on Android before HQ did if you've noticed in uptick in coworkers and friends stopping dead in their tracks around 3pm est to stare intensely at their phones it's likely they've fallen under the spell of HQ Trivia the live mobile game show app developed by the team behind Vine and launched in late August draws hundreds of thousands of contestants multiple times a day to compete for a pot of actual cash to win you just need to answer 12 multiple choice trivia questions correctly within the time limit and a piece of the jackpot usually 1,000 per game but it's been as big as 8,500 is yours simple enough right wrong winning HQ is hard as hell

call tv quiz shows are an example of television programmes provided by commercial broadcasters in order to increase their

revenue the viewer watches the live broadcast then sends a text message or makes a premium rate telephone call in order to take part with the broadcaster keeping a proportion of the call revenue the culture committee has decided to examine this development and whether some form of regulation is required since the programmes seem to be another means of gambling with some members of the public complaining about them this report therefore has set out a number of recommendations as to how broadcasters and regulators should address this the committee states that there seems to be a lack of fairness and transparency throughout the process for example players are generally not told that it is a matter of luck whether a call is connected to the studio and that the chances of getting through are very slim also the cost of calling is not always made as clear as it might be or the amount players might have to spend to win a prize primary responsibility for maintaining confidence in the call tv quiz show format rests with the operating companies and the broadcasters the committee believes that the guidance drawn up by the two main regulators ofcom and icstis does not go far enough the committee also states that call tv quiz shows should constitute gaming under the gambling act 2005 and the culture department and the gambling commission should consider this as a matter of urgency operators should have voluntarily introduced practices intended to help viewers who make repeated premium rate calls appreciate how much they are spending also some assessment of the addiction to

participation in such shows should be undertaken viewers should be made aware that puzzles on call tv quiz shows have a cryptic element and that ofcom should make it obligatory to have games verified with a third party and solutions lodged with them to prevent underhand changes being made while the show is on air ofcom should also publish periodic reports on its monitoring of call tv quiz programmes any practice of misleading viewers about call volumes or of blocking of calls would be unfair and fraudulent and should be punished under criminal law the committee recommends that broadcasters should be required to display some recent historical information about volume of incoming calls and the odds of being connected to the studio also that a single body ofcom take responsibility for registering all complaints
