the letters in upcountry south carolina goes to war provide valuable firsthand accounts of both battlefronts and the home front sharing rich details about daily life as well as evolving attitudes toward the war as the men of service age from each family join the confederate ranks they begin writing from military camps in virginia and the carolinas describing combat in some of the war s more significant battles though they remain staunch patriots to the southern cause until the bitter end the surviving combatants write candidly of their waning enthusiasm in the face of the realities of combat the corresponding letters from the home front offer a more pragmatic assessment of the period and its hardships emblematic of the fates of many southern families the experiences of these representative south carolinians are dramatically illustrated in their letters from the eve of the civil war through its conclusion at lulu com in author spotlight page link above look under about to connecticut state library in hartford is one of the last great genealogical manuscript collections to be published covering 137 towns and comprising 14 333 typed pages this magnificent collection of birth marriage and death records to about 1850 was the life work of general lucius barnes barbour

connecticut examiner of public records from 1911 to 1934 through the year 2000 our compilers have transcribed about three quarters of the barbour collection spanning the towns of andover through stonington in 43 separate volumes book by book the record entries in this series are arranged in strict alphabetical order by town and give name date of event names of parents names of both spouses and sometimes such items as age occupation and specific place of residence following a one year hiatus the barbour series resumes with volume 44 compiled by jan tilton covering the towns of stafford and tolland connecticut this volume identifies some 31 000 18th and 19th century inhabitants a biography of the boldest and most unsettling of the early modern philosophers spinoza which examines the man s life relationships writings and career while also forcing us to rethink how we previously understood spinoza s reception in his own time and in the years following his death the boldest and most unsettling of the major early modern philosophers spinoza had a much greater if often concealed impact on the international intellectual scene and on the early enlightenment than philosophers historians and political theorists have conventionally tended to recognize europe wide efforts to prevent the reading public and university students learning about spinoza the man and his work in the years immediately after his death in 1677 dominated much of his early reception owing to the revolutionary implications of his thought for philosophy religion practical ethics and lifestyle bible criticism and political theory nevertheless contrary to what has sometimes been maintained his general impact was immediate very widespread and profound one of the main objectives of the book is to show how early and how deeply leibniz bayle arnauld henry more anne conway richard baxter robert boyle henry oldenburg pierre daniel huet richard simon and nicholas steno among many others were affected by and led to wrestle with his principal ideas there have been surprisingly few biographies of spinoza given his fundamental importance in intellectual history and history of philosophy bible criticism and political thought jonathan i israel has written a biography which provides more detail and context about spinoza s life family writings circle of friends highly unusual career and networking and early reception than its predecessors weaving the circumstances of his life and thought into a detailed biography has also led to several notable instances of nuancing or revising our notions of how to interpret certain of his assertions and philosophical claims and how to understand the complex international reaction to his work during his life time and in the years immediately following his death the aacr annual meeting is a must attend event for cancer researchers and the broader cancer community this year s theme delivering cures through cancer science reinforces the
