the later middle ages and the eighteenth century religious orders were in the vanguard of reform movements within the christian church recent scholarship on medieval europe has emphasised how mendicants exercised a significant influence on the religiosity of the laity by actually shaping their spirituality and piety in a similar way for the early modern period religious orders have been credited with disseminating tridentine reform training new clergy gaining new converts and bringing those who had strayed back into the fold much about this process however still remains unknown particularly with regards to east central europe exploring the complex relationship between western monasticism and lay society in east central europe across a broad chronological timeframe this collection provides a re examination of the level and nature of interaction between members of religious orders and the communities around them that the studies in this collection are all located in east central europe transylvania hungary austria and bohemia fulfils a second key aim of the volume the examination of clerical and lay piety in a region of europe almost entirely ignored by western scholarship as such the volume provides an important addition to current scholarship showcasing fresh research on a subject and region on which little has been published in english the volume further contributes to the reintegration of eastern and western european history expanding the existing parameters of scholarly discourse into late medieval and early modern religious practice and piety this collection of literature attempts to compile many of the classic works that have stood the test of time and offer them at a reduced affordable price in an attractive volume so that everyone can enjoy them firmly establishes the importance of early affective devotion in the hybrid poetics of the earliest english poetry this book is part of the tradition classics it contains classical literature works from over two thousand years most of these titles have been out of print and off the bookstore shelves for decades the book series is intended to preserve the cultural legacy and to promote the timeless works of classical literature readers of a tradition classics book support the mission to save many of the amazing works of world literature from oblivion with this series tradition intends to make thousands of international literature classics available in printed format again worldwide rebecca lemon illuminates a previously buried conception of addiction as a form of devotion at once laudable difficult and extraordinary that has been concealed by the persistent modern link of addiction to pathology surveying sixteenth century invocations she reveals how early moderns might consider themselves addicted to study friendship love or god however she also uncovers their understanding of addiction as a form of compulsion that resonates with modern scientific definitions specifically early modern medical tracts legal rulings and religious polemic stressed the dangers of addiction to alcohol in terms of disease compulsion and enslavement yet the relationship between these two understandings of addiction was not simply oppositional for what unites these discourses is a shared emphasis on addiction as the overthrow of the will etymologically addiction is a verbal contract or a pledge and even as sixteenth century audiences actively embraced addiction to god and love writers warned against commitment to improper forms of addiction and the term became increasingly associated with disease and tyranny examining canonical texts including doctor faustus twelfth night henry iv and othello alongside theological medical imaginative and legal writings lemon traces the variety of early modern addictive attachments although contemporary notions of addiction seem to bear little resemblance to its initial meanings lemon argues that the early modern period s understanding of addiction is relevant to our modern conceptions of and debates about the phenomenon a devotional and liturgical resource of great beauty and depth for daily use in public worship and private prayer in the tradition of bestselling authors ian mcewan and anne enright samantha bruce benjamin s brilliant and timeless debut unveils the dark side of human nature as four women share the poignant tale of love obsession and ultimate betrayal that binds them forever have we all not wished to keep forever the one person we love the most the secluded beaches of a sun drenched mediterranean island are the perfect playground for young sebastian and adora emotionally adrift from their mother adora shelters her sensitive older brother from the cruelties of the world sophie does not question her children s intense need for one another until it s too late her beloved son s

affections belong to adora and when he drowns in the sea she has no one else to blame still heartbroken years later adora fills her emptiness with genevieve the precocious young daughter of her husband s business associate and his jealous wife miranda thrilled to be invited into the beautiful and enigmatic adora s world the child idolizes her during their summers together yet as the years progress genevieve begins to suspect their charmed existence is nothing more than a carefully crafted illusion soon she too is ensnared in a web of lies stunningly told in the tragic voices of four women whose lives are fatefully entangled the art of devotion is evocative and haunting a story of deceit jealousy and the heartbreaking reality of love s true power who will mourn with me who will break bread with me who is my neighbor in the wake of the religious reformations of the sixteenth century such questions called for a new approach to the communal religious rituals and verses that shaped and commemorated many of the brightest and darkest moments of english life in england new forms of religious writing emerged out of a deeply fractured spiritual community conflicts of devotion reshapes our understanding of the role that poetry played in the re formation of english community and shows us that understanding both the poetics of liturgy and the liturgical character of poetry is essential to comprehending the deep shifts in english spiritual attitudes and practices that occurred during the sixteenth and seventeenth centuries the liturgical communitarian perspective of conflicts of devotion sheds new light on neglected texts and deepens our understanding of how major writers such as edmund spenser robert southwell and john donne struggled to write their way out of the spiritual and social crises of the age of the reformation it also sheds new light on the roles that poetry may play in negotiating and even overcoming religious conflict attention to liturgical poetics allows us to see the broad spectrum of ways in which english poets forged new forms of spiritual community out of the very language of theological division this book will be of great interest to teachers and students of early modern poetry and of the various fields related to reformation studies history politics and theology the summa theologica is the best known work of italian philosopher scholar and dominican friar saint thomas aquinas 1225 1274 widely considered the catholic church s greatest theologian famously consulted immediately after the bible on religious questions at the council of trent aquinas s masterpiece has been considered a summary of official church philosophy ever since aquinas considers approximately 10 000 questions on church doctrine covering the roles and nature of god man and jesus then lays out objections to church teachings and systematically confronts each using biblical verses theologians and philosophers to bolster his arguments in volume iii aquinas addresses faith and heresy charity peace and war mercy anger and justice prayer truth and much more this massive work of scholarship spanning five volumes addresses just about every possible query or argument that any believer or atheist could have and remains essential more than seven hundred years after it was written for clergy religious historians and serious students of catholic thought first published in 1999 routledge is an imprint of taylor francis an informa company according to public health orthodoxy blood for transfusion is safer when derived from voluntary nonremunerated donors as developing nations phase out compensated blood collection efforts to comply with this current policy many struggle to keep their blood stores up veins of devotion details recent collaborations between guru led devotional movements and public health campaigns to encourage voluntary blood donation in northern india focusing primarily on delhi jacob copeman carefully situates the practice within the context of religious gift giving sacrifice caste kinship and nationalism the book analyzes the operations of several high profile religious orders that organize large scale public blood giving events and argues that blood donation has become a site not only of frenetic competition between different devotional movements but also of intense spiritual creativity despite tensions between blood banks and these religious groups their collaboration is a remarkable success story the nation s blood supply is replenished while blood donors discover new devotional possibilities in the nineteenth century a new type of mystic emerged in catholic europe while cases of stigmatisation had been reported since the thirteenth century this era witnessed the development of the stigmatic young women who attracted widespread interest thanks to the appearance of physical stigmata to understand the popularity of these stigmatics we need to regard them as the saints and religious celebrities of their time with their miraculous bodies they fit contemporary popular ideas if not necessarily those of the church of what sanctity was as knowledge about them spread via modern media and their fame became marketable they developed into religious celebrities bhakti rasāmṛta sindhu is
