Unit 1: Foundations of Algebra

May 24 2024

Unit 1 covers the fundamental properties of real numbers, including the order of operations, properties of addition and multiplication, and the distributive property. It also introduces the concept of exponents and the rules for working with them.

Chapter 1: Real Numbers

Apr 23 2024

Chapter 1 discusses the classification of real numbers into natural numbers, integers, rational numbers, and irrational numbers. It also covers the properties of these number sets and how they relate to each other.

Chapter 2: Operations with Real Numbers

Mar 22 2024

Chapter 2 focuses on the arithmetic operations of addition, subtraction, multiplication, and division with real numbers. It provides rules for these operations and shows how to apply them to various types of numbers.

Chapter 3: Properties of Real Numbers

Feb 21 2024

Chapter 3 explores the properties of real numbers, such as the commutative, associative, and distributive properties. It also discusses the identity and inverse properties for addition and multiplication.

Chapter 4: The Real Number System

Jan 20 2024

Chapter 4 provides a comprehensive overview of the real number system, including the construction of real numbers from rational numbers and the properties of the real number line.

Chapter 5: The Real Number System

Dec 19 2023

Chapter 5 discusses the relationship between the real number system and the complex number system. It introduces the concept of complex numbers and shows how they can be represented on the complex plane.
