including every kind of material culture images and inscriptions on monuments can show us how priests and cult personnel saw themselves and were viewed by others illuminating the social and political identity of these figures within their polis dedications and donations by cult personnel and the honours that they earned demonstrate their claim on the city s attention and their financial power the cityscape itself came to be shaped in varying intensities and forms by statues in honour of cult personnel set up by relatives fellow citizens and other groups this set of cultural records analysed in the studies presented here is central to understanding how the roles of priests and priestesses were constructed in social and political terms in post classical athens the approaches are both
