~~actions an action is a visual representation of a component~~
transforming during a point in time add actions to the
timeline on a storyboard to create an animation you can
adjust the duration and placement of each action on the
timeline when the playhead is on the timeline at a positive
point in time actions are captured and can be edited the
timeline displays all actions included in the storyboard when
the playhead is at time 0 or in the scratch zone the empty
zone to the left of the timeline actions are not being
recorded but the transforms performed are honored this is
especially useful for setting up a scene in preparation for
the animation

Know Your Enemy - A User's Guide to Bad Management!

2018-09-28 orients the new user to window system concepts and
provides detailed tutorials for many client programs
