great early epic beowulf tells his side of the story seminar paper from the year 2021 in the subject english language and literature studies literature grade 13 university of hamburg language english abstract john gardner s novel grendel from 1971 is one of the most famous modern retelling and focuses on the monster from the beowulf poem as the quote from the oed shows monsters are typically associated with great size a savage character fear or terror power violence and mostly with a hideous and frightening appearance however gardner s monster appears to be different from the monsters that most readers know from literature by putting grendel in the center of his novel gardner allows the reader to see the world through the monster s eye the aim of this term paper is therefore to analyze which effect this change of perspective has in the construction of monstrosity the basic assumption of this work is that gardner develops a humanized monster that is less frightening less violent and in the end less monstrous to the reader on top of that gardner effectively presents the monstrous side of humans to further blur the lines between monster and human and deconstructs the popular image of the monster grendel introduces readers to the imagination of a popular prolific american writer an essential essay on john champlain gardner s grendel this scholarly piece examines John Gardner 1983 beowulf s presence on the popular cultural radar has increased in the past two
decades coincident with cultural crisis and change why by way of a fusion of cultural studies
adaptation theory and monster theory beowulf s popular afterlife examines a wide range of anglo
american retellings and appropriations found in literary texts comic books and film the most
remarkable feature of popular adaptations of the poem is that its monsters frequently victims of
organized militarism male aggression or social injustice are provided with strong motives for
their retaliatory brutality popular adaptations invert the heroic ideology of the poem and
monsters are not only created by powerful men but are projections of their own pathological
behavior at the same time there is no question that the monsters created by human malfeasance
must be eradicated

The Sunlight Dialogues 2010-09-21 morris provides an analysis of john gardner s oeuvre that is in
keeping with gardner s acknowledged devotion to the aristotelian view of art he sorts through the
complexity of allusions to blake melville and poe in the king s indian and describes the ongoing
battle of the moral philosophers collingwood and whitehead with the naysayers nietzsche and
sartre in the resurrection grendel and mickelsson s ghosts morris s study does not attempt to
defend gardner s use of what he called the college technique of fiction writing but he does show
how gardner creates resonance by layering his fictions with such allusions developing an art form
that expresses a moral aesthetic that gardner thought viable proven and trustworthy
