Recording for the Blind & Dyslexic, ... Catalog of Books 2016-10-11 what drives wealthy and powerful people to white collar crime why they do it is a breakthrough look at the dark side of the business world from the financial fraudsters of enron to the embezzlers at tyco to the insider traders at mckinsey to the ponzi schemer bernie madoff the failings of corporate titans are regular fixtures in the news in why they do it harvard business school professor eugene soltes draws from extensive personal interaction and correspondence with nearly fifty former executives as well as the latest research in psychology criminology and economics to investigate how once celebrated executives become white collar criminals white collar criminals are not merely driven by excessive greed or hubris nor do they usually carefully calculate costs and benefits before breaking the law instead soltes shows that most of the executives who committed crimes made decisions the way we all do on the basis of their intuitions and gut feelings the trouble is that these gut feelings are often poorly suited for the modern business world where leaders are increasingly distanced from the consequences of their decisions and the individuals they impact the extraordinary costs of corporate misconduct are clear to its victims yet never before have we been able to peer so deeply into the minds of the many prominent perpetrators of white collar crime with the increasing globalization of business threatening us with even more devastating corporate misconduct the lessons soltes draws in why they do it are needed more urgently than ever

*Why They Do It* 2015-12-10 although the budget deficit is much discussed in political debate and economic research there is no agreement on how it should be measured there are at least four options which can be called the cash deficit the financial deficit the full accrual deficit and the comprehensive deficit each is

informative but each has problems of relevance or reliability some are more vulnerable to manipulation involving assets and liabilities that are unrecognized in the underlying accounting others to manipulation involving the mismeasurement of recognized assets and liabilities governments should publish all four in a form that reveals their interrelationships
