what is required to get a better grade written by steve potter and revised by a senior examiner martin rowland this aqa a2 biology student unit guide is the essential study companion for unit 5 control in cells and in organisms this full colour book includes all you need to know to prepare for your unit exam clear guidance on the content of the unit with topic summaries knowledge check questions and a quick reference index examiner s advice throughout so you will know what to expect in the exam and will be able to demonstrate the skills required exam style questions with graded student responses so you can see clearly what is required to get a better grade written by steve potter and revised by a senior examiner martin rowland this aqa as a2 biology student unit guide is the essential study companion for units 3 and 6 investigative and practical skills in biology this full colour book includes all you need to know to prepare for your unit 3 and unit 6 assessments clear guidance on the range of practical apparatus and techniques that you need to know about and an overview of the scientific method of testing ideas by experimentation examiner s advice throughout so you will know what to expect in the assessments and will be able to demonstrate the skills required sample investigation tasks for extra practice before your assessments provides complete coverage of the content and investigative and practical skills required for assessments tailored precisely to the as and a2 specifications written by a chief examiner and other experienced examiners the aqa biology for a2 student book and website support the revised aqa biology specification the book is supported by a students website providing them with an interactive version of the book enhanced with additional resources ensure outstanding support for the specification written by an examining team provide practice in investigating biological problems and address the new investigative skills assessments with analysis activities explain how biologists tackle scientific problems by providing a stimulating context and plenty of how science works examples student unit guides are perfect for revision each guide is written by an examiner and explains the unit requirements summarises the relevant unit content and includes a series of specimen questions and answers there are three sections to each guide introduction includes advice on how to use the guide an explanation of the skills being tested by the assessment objectives an outline of the unit or module and depending on the unit suggestions for how to revise effectively and prepare for the examination questions content guidance provides an examiner s overview of the module s key terms and concepts and identifies opportunities to exhibit the skills required by the unit it is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics question and answers sample questions and with graded answers which have been carefully written to reflect the style of the unit all responses are accompanied by commentaries which highlight their respective strengths and weaknesses giving students an insight

into the mind of the examiner this revision guide is written at the appropriate level for the exam giving students a clear indication of the level they are expected to achieve the content covers everything students need to know for the ocr exams without extra information needed for other exam specifications part of the collins student support materials series this student booklet serves as a study aid for module 4 of the aqa specification b biology a as qualification this comprehensive revision guide matches the aqa specification exactly and provides students with engaging revision material and exam style questions to test knowledge and skills please note this title is suitable for any student studying exam board aqa level a level subject biology first teaching september 2015 first exams june 2017 fully revised and updated for the new linear qualification written and checked by curriculum and specification experts this student book supports and extends students through the new course whilst delivering the maths practical and synoptic skills needed to succeed in the new a levels and beyond the book uses clear straightforward explanations to develop true subject knowledge and allow students to link ideas together while developing essential exam skills the blend of student books and supporting online resources allow you to personalise the delivery of the course to meet students needs and develop the skills required to tackle how science works and practical assessment feel confident that you are covering exactly what is required of the aqa human biology a2 specification learning objectives clearly referenced to the related statements in the aqa specification let students know exactly what they ll need to learn and understand in that topic extension materials provide extra challenges for students helping them to develop key skills content coverage of the two compulsory aqa a level biology modules a2 module 4 energy and environment a2 module 5 continuity and control the book also contains material designed specifically to prepare students for the synoptic elements of the a level examination nail your a2 empa i have taught marked and moderated a level isas and empas for aqa and from this written the only specific guide for this exam with my knowledge of common mistakes and mark schemes i am sure that this is an effective and comprehensive guide to the hardest parts of the process experimental design and statistics most students seem to get themselves in knots mainly because their teachers don t really understand it by reading and understanding the theory following the worked examples and finally completing the exam style questions you will be doing everything you can to get your best mark in the exam as with all exams the same questions keep coming up make sure you know what they are and how to answer them what this book is an educational resources reviewing the use of statistics and the three statistical tests you need to be familiar with for your empa exam style questions on experimental design with exemplar answers based on previous mark schemes it clearly walks through when each statistical test is used includes worked examples and then an exam style question with a following mark scheme based on previous past papers it comprehensively and thoroughly sets you up for task 1 and 2 as well as section a of the written paper it also gives some insight into the style of questions in section b what it is not written based on having seen this coming year s exam this is not cheating the revision guides contain exactly what students need to know for the aqa b exams with exam style questions tips on common pitfalls and lots of sound advice focused revision for your best possible grade part of the collins student support materials series this student booklet serves as a study aid for module 5 of the aqa specification b biology a as qualification written by steve potter and revised by a senior examiner martin rowland this aqa as biology student unit guide is the essential study companion for unit 1 biology and disease please note this title is suitable for any student studying exam board aqa level as level subject biology first teaching september 2015 first exams june 2016 fully revised and updated for the new linear qualification written and checked by curriculum and specification experts this student book supports and extends students through the new course whilst delivering the maths practical and synoptic skills needed to succeed in the new a levels and beyond the book uses clear straightforward explanations to develop true subject knowledge and allow students to link ideas together while developing essential exam skills focused revision for your best possible grade student unit guides are perfect for revision written by examiners they explain the unit requirements summarise the content and include specimen questions and answers each guide contains an introduction outlining the aims of the as or a2 qualification and the skills required and offering strategies for revision content guidance providing an examiner s overview of the module s key terms and concepts and identifying opportunities to exhibit the skills required by the unit this section shows students what they have to learn and how they might analyse and evaluate topics questions and answers with graded answers to questions which have been carefully written to reflect the style of the unit all responses are accompanied by commentaries which highlight their respective strengths and weaknesses giving students an insight into the mind of the examiner written to meet the

requirements of the new as a2 level biology specifications these highly illustrated texts provide full coverage of the aqa a specification and edexcel option c
