how do you keep the cracks in starry night from spreading how do you prevent artworks made of hugs or candies from disappearing how do you render a fading photograph eternal or should you attempt it at all these are some of the questions that conservators curators registrars and exhibition designers dealing with contemporary art face on a daily basis in still life fernando domínguez rubio delves into one of the most important museums of the world the museum of modern art moma in new york to explore the day to day dilemmas that museum workers face when the immortal artworks that we see in the exhibition room reveal themselves to be slowly unfolding disasters still life offers a fascinating and detailed ethnographic account of what it takes to prevent these disasters from happening going behind the scenes at moma domínguez rubio provides a rare view of the vast technological apparatus from climatic infrastructures and storage facilities to conservation labs and machine rooms and teams of workers from conservators and engineers to guards and couriers who fight to hold artworks still as moma reopens after a massive expansion and

rearranging of its space and collections still life not only offers a much needed account of the spaces actors and forms of labor traditionally left out of the main narratives of art but it also offers a timely meditation on how far we as a society are willing to go to keep the things we value from disappearing into oblivion
