Key Methods in Geography 2016-09-20 decolonising geography this book presents an extraordinarily sensitive account of geography s histories in five african countries subjected to british colonial rule craggs and neate draw together political and imaginative processes of decolonisation through an innovative biographical approach that humanizes and enlivens the story of our academic discipline it will be an invaluable resource for those seeking a deeper understanding of decolonisation its recent trajectories and far reaching implications on the african continent shari daya affiliate associate professor in environmental and geographical science university of cape town by placing the experiences ideas and practices of african geographers in the center of their analyses craggs and neate provide an unprecedented account

of historical and contemporary decolonizing struggles within geography and the academy this book should be required reading for all those looking to decolonize the discipline and dislodge it from its global north histories institutions and ideologies mona domosh professor of geography the joan p and edward j foley jr 1933 professor dartmouth college this meticulous work explores how colonialism decolonization and postcolonialism shaped african geography and geographers it sheds light on efforts to africanize the discipline a process which i was both witness to and a participant in stanley okafor professor of geography retired university of ibadan how did a generation of academic geographers engage with constitutional decolonisation during the end of the british empire in africa in decolonising geography disciplinary histories and the end of the british empire in africa 1948 1998 ruth craggs and hannah neate explore how the teaching research administration and activism of geographers in africa shaped the discipline and the post colonial geopolitics of the continent the authors follow the professional lives of individual geographers to provide fresh insights into decolonisation in the former british empire in africa drawing from extensive archival research and more than 40 oral history interviews with geographers in ghana nigeria south africa tanzania and the uk decolonising geography is a must read for any reader in the uk and africa with an interest in the relationships between geography and decolonisation

Decolonising Geography? Disciplinary Histories and the End of the British Empire in Africa, 1948-1998 2022-05-03 this book explores the pivotal role that geography as a school subject plays in helping every young person achieve their educational potential expressed as geocapabilities this concept draws on the the capabilities approach developed by amartya sen and martha nussbaum applied to curriculum thinking in schools while traditional subjects have often been deemed irrelevant and outdated in an overcrowded secondary school curriculum subjects like geography have often been lost or combined with others to fulfil a broad skills agenda more recent talk of a knowledge led curriculum can often lead to the recitation of facts at the expense of developing deeper understanding this book argues the concept of powerful geographical knowledge based on the work of michael young and david lambert invests the subject of geography with its educational potential this forms the basis of geocapabilities geocapabilities focuses on both what is being taught and why and as such provides a framework of curriculum thinking which will be of interest and value to geography teachers school leaders with curriculum development responsibilities and all those interested in the capability approach and the moral imperative of education

Geography Education's Potential and the Capability Approach 2016-07-30 this book examines geographical names place names and toponymy from philosophical and cultural evolutionary perspectives geographical name tracking networks geontns are posited as tools for tracking names through time and across space and for making sense of how names evolve both temporally and spatially examples from north and south american indigenous groups the canadian arctic wales england and the middle east are brought into a theoretical framework for making sense of aspects of place naming practices beliefs and systems new geographical tools such as geographic information systems gis and global positioning systems gps are demonstrated to be important in the production and maintenance of robust networks for keeping names and their associated meanings viable in a rapidly changing world where place naming is being taken up increasingly in social media and other new mapping platforms the geography of names makes the case that geographical names are transmitted memetically i e as cultural units or memes through what saul kripke called communication chains combining insights from kripke with views of later wittgenstein on language and names as being inherently spatial the present work advances theories of both these thinkers into an explicitly geographical inquiry that advances philosophical and practical aspects of naming language and mapping

The Geography of Names 2017-02-02 this edited collection examines the various influences relationships and developments beer has had from distinctly spatial perspectives the chapters explore the functions of beer and brewing from unique and sometimes overlapping historical

economic cultural environmental and physical viewpoints topics from authors both geographers and non geographers alike have examined the influence of beer throughout history the migration of beer on local to global scales the dichotomous nature of global production and craft brewing the neolocalism of craft beers and the influence local geography has had on beer s most essential ingredients water starch malt hops and yeast at the core of each chapter remains the integration of spatial perspectives to effectively map the identity changes challenges patterns and locales of the geographies of beer
