Memoranda Submitted by Government Departments in Reply to a Questionnaire of November, 1955

1956

cities and the built environment more broadly are key in the global response to climate change this groundbreaking book seeks to understand what governance tools are best suited for achieving cities that are less harmful to the natural environment

The Times Index

1995

hopkins founder of the international transition towns movement asks why true creative positive thinking is in decline asserts that it s more important now than ever and suggests ways our communities can revive and reclaim it

The Statist

1924

in a changing climate characterised by rapid urbanisation it is increasingly difficult to devise resilient urban governance models which also preserve the environment this book takes singapore the incontestable leader in this field as a case study delving into the triumphant story of its successes in urban governance and smart city planning

My Revision Notes: Edexcel GCSE (9-1) History: Weimar and Nazi Germany, 1918-39

2017-09-04

this book presents a case for teaching philosophy in schools it develops two original arguments for teaching philosophy to all students at some point over the course of their education gatley argues that teaching philosophy is the best way to help students to think clearly using ordinary or non specialist concepts such as good truth or happiness she goes on to argue that teaching philosophy is the best way to help students to make sense of the different conceptual schemes used by different school subjects combining these two arguments gatley suggests that these two roles for philosophy are central to the task of educating people and so philosophy ought to be included on school curricula building on the work of philosophers of education including richard stanley peters harry brighthouse matthew lipman mary midgley and martha nussbaum the book covers a range of topics including philosophy for children p4c the aims education religious education curriculum design and education policy

Governance for Urban Sustainability and Resilience

2014-10-31

global trade law series volume 55 india one of the world s foremost trading nations exhibits a particularly complex regulatory landscape with a variety of standard setting bodies regulators accreditation and certification bodies inspection agencies as well as several state level regulators this is the first book to extensively describe the nature of standard setting processes in india and the key agencies involved with this task greatly clarifying the scope of market opportunities in the country lucid contributions from experienced practitioners and regulators with first hand experience in formulating and advising on standards related issues in international trade help disentangle the web of laws regulations operations and functions of india s standard setters in governmental non governmental and industry contexts the chapters describe how standards apply to such crucial trade aspects as the following conformity assessment practice and procedure environmental ethical social and safety issues import bans and import licensing certification and labelling measures mutual recognition agreements food safety and standardisation of the digital economy the book is drafted throughout in an easy to read style with numerous tables flowcharts and figures illustrating step by step compliance procedures informative annexes guide the reader to relevant agencies and identify their roles and responsibilities this book provides a clear and concise guide to the operations functions and compliance and documentation requirements of india s standard setting and regulatory bodies across all sectors and products and thus will serve as an unmatched guide for manufacturers traders and exporters operating in the indian market or seeking to export to india it will also serve as a useful handbook to policymakers academics and researchers interested in understanding the role of standard setting bodies in the field of international trade

The Architects' Journal

2003
