don mckay robert bringhurst jan zwickly and tim lilburn are major voices in an era of ecological devastation and spiritual unease their diverse questioning work suggests new ways to confront some of the most pressing issues of our time in vibrant prose mark dickinson explores the relationship between the lives of these poets and their writing examining their intersecting careers and friendships and the ways they learned from and challenged one another canadian primal uses an unconventional approach blending biography with literary analysis and drawing from meetings and correspondence with each poet over many years to trace the people and events that inspired the creation of important texts dickinson tracks how each of the writers arrived at poetry as a way of being and at the heart of their poetics he finds both a musical intelligence and the crucial importance of the land canadian primal is literary biography reconceived as an adventure of the mind body and spirit ebullient intelligent and eminently readable it reminds us that we can live on the earth in a different way true to the defining experiences of our lives surrounded by meaning and presence beyond our imagining written with the grace and quiet beauty of her pulitzer prize winning novel barn blind is a spellbinding story on the classic american themes of work love and duty and the lengths we will go to achieve success the verdant pastures of a farm in illinois have the placid charms of a landscape painting but the horses that graze there have become the obsession of a woman who sees them as the fulfilment of every wish to win to be honoured to be the best her ambition is the galvanizing force in jane smiley's first novel a force that will drive a wedge between her and her family and bring them all to tragedy john m bischoffberger is a pennsylvanian doctor adrift in the relative wilds of maine during the dying years of the great depression struggling with a loss of religious faith and retreating from painful memories of the great war john has married and set up practice in the town of naples as medical examiner for cumberland county it is also john's job to investigate deaths that occur under unusual or suspicious circumstances yet as he goes about his work he begins to suspect that the deaths he is called upon to document are in fact far from routine against his better judgement he becomes convinced that an uneasy alliance of three itinerants is going about the county killing an old woman a little girl and a thin man are fulfilling some strange and unspoken duty drowning suffocating hanging and the like men women and children each of the three harbouring a profound distrust of the other two yet still this queer confederacy press on with their murderous work john confides in local outsider joseph an older man who becomes john's only outlet for his impossible fears all the while the three continue to kill and the deaths seem to be drawing closer to john others who may suspect foul play then acquaintances of john then perhaps friends even family members as the storm clouds of a new world war gather in europe and john's rationality slowly unravels he must find a way to disprove what he has reluctantly come to believe or to confirm his worst fears and take steps to end the killing spree of the three in the woods whatever the cost with a narrative switching between the doctor and the trio of murderers and inspired by and including genuine accounts made by the real dr john m bischoffberger in his medical journal between 1934 and 1941 the novel weaves about them a fictional and dreamlike story of faith community and how we deal with life in the shadow of mortality features medalists finalists in the competition along with biographies selected portfolios of recent additions to the art directors club hall of fame new york magazine was born in 1968 after a run as an insert of the new york herald tribune and quickly made a place for systematic criminalization of gay men and widespread condemnation of homosexuality post world war i alexis burling san francisco chronicle stories of murder have never been just about killers and victims instead crime stories take the shape of their times and reflect cultural notions and prejudices in this edgar award finalist for best fact crime james polchin recovers and recounts queer stories from the crime pages often lurid and euphemistic that reveal the hidden history of violence against gay men but what was left unsaid in these crime pages provides insight into the figure of the queer man as both criminal and victim offering readers tales of vice and violence that aligned gender and sexual deviance with tragic gruesome endings victims were often reported as having made indecent advances forcing the accused's hands in self defense and reducing murder charges to manslaughter as noted by caleb cain in the new yorker review of indecent advances it's impossible to understand gay life in twentieth century america without reckoning with the dark stories gay men were unable to shake free of them until they figured out how to tell the stories themselves in a new way indecent advances is the first book to fully investigate these stories of how queer men navigated a society that criminalized them and displayed little compassion for the violence they endured polchin shows with masterful insight how this discrimination was ultimately transformed by activists to help shape the burgeoning gay rights movement in the years leading up to stonewall javajenkins
