gladstone walk you step by step through the entire vc funding process showing exactly how to get funded fast without the trauma this end to end update of the classic vc guide covers the latest techniques tax rules and above all marketplace realities entrepreneurs do much more than manage small businesses at the heart of entrepreneurship is the discovery process an idea is conceived and then exploited for profit but if the idea is neither useful nor unique its exploitation will generate only average profits therefore the idea and the process that leads to its discovery are of the utmost importance to the success of any new venture can the discovery process be taught or must one be born with the talent to unearth promising opportunities fiet argues that entrepreneurial discovery can indeed be taught and he proposes a theory of the informational elements that constitute the discovery process entrepreneurship as an academic discipline has often been criticized for lacking intellectual rigor and a theoretical foundation fiet supplies both in this scholarly book which approaches entrepreneurial competence from an academic perspective there are three primary characteristics of entrepreneurial competence tacit knowledge of an entrepreneur s field of endeavor which can be improved by trial and error the

knowledge of decision rules that enable one to make rational informational investments based upon the signals of opportunities and the unequal distribution of entrepreneurial competence among the population recognizing that entrepreneurs start out at different stages of competence fiet asserts that anyone can improve using his book as a pedagogical aid this volume fills a void in the entrepreneurship literature which too often is indistinguishable from that which informs courses on small business management enables readers to easily understand the contract to enable better compliance and efficiency guide to the fidic conditions of contract for construction the red book 2017 helps the reader overcome some of the difficulties encountered on a typical international construction project using the fidic construction contract 2nd edition the 2017 red book by summarizing the activities and duties of those involved and crystallizing the requirements of the contract to aid in reader comprehension the text explains clauses in the sequence they appear in the contract but also in the order they happen in real time on site it further provides practical guidance in a concise manner and in straightforward jargon free language it is a highly practical resource for use during the project rather than a legal review of the contractual requirements ensuring readers are fully conversant with the revised requirements and procedures mandated by the 2017 edition of the contract guide to the fidic conditions of contract for construction the red book 2017 includes a review of the duties and responsibilities of the three parties the employer the engineer and the contractor engaged on a fidic based contract a review of the flow of documentation and instructions which is to be provided by one party to another party throughout the contract period practical guidelines are provided for the avoidance of disputes and delays in order that contracts are completed as planned guide to the fidic conditions of contract for construction the red book 2017 is a practical and highly useful resource for engineers consultants project managers and others who are engaged in the site management of international projects using the fidic construction contract along with those involved in contractual administration on behalf of the client how to attract the venture capital needed to grow any business venture capital teaches entrepreneurs and small business owners everything they need to know about finding the venture capital they need to grow their businesses based in development even for india with the increasing pace of technological advances and globalisation rapidly taking over india is all set to become the next hub for economic growth adding to this is a young population with an average age of 29 years which puts india at an advantage but is india s human capital prepared to face the challenge the role of education is crucial in this aspect and it is high time that we rethink our approach towards necessary education policies the focus here is on basic school education as it lays the foundation for an individual s future and career and is also facing some severe problems for a long time the education sector has been facing many challenges in terms of poor infrastructure development limited investment and a shortage of trained teachers the need of the hour is to push potential investment in the education sector in order to build the digital infrastructure and provide quality education education in india has recently earned worldwide attention not only from educationists but also from researchers entrepreneurs technologists innovators investors international agencies and the government innumerable interventions are being designed and implemented on a daily basis to improve the quality of education in the country education is among the top five fastest growing commodities in terms of consumer expenditure in india and consumption expenditure towards education is growing at a cagr of 6 3 with a growing disposable income the spending power of the indian consumer is increasing day by day considering the importance given to education by an average indian consumer coupled with the growing demand for advanced skills in the job market the proportion of individual income towards education is poised to increase going forward european private equity investment reached 47 billion in 2005 up 27 from 2004 funds raised for private equity were 72 billion up 250 on the previous year both figures being all time highs raising venture capital finance in europe provides business owners entrepreneurs and investors alike with a step by step approach to exploiting this market and funding new projects effectively written by keith arundale an advisor and commentator on the european and us vc and private equity industry for over 20 years the guide blends business experience with practical approaches to enable the reader to maximize the opportunities available the book includes a series of real life case studies from venture capitalists and entrepreneurs from around europe each with practical tips for successful venture capital finance raising with forewords from sir paul judge chairman enterprise education trust and patrick sheehan chairman venture capital committee european private equity and venture capital association the book begins with a brief introduction to the field including an analysis of current trends and issues in the industry and goes on to provide a detailed framework for an objective assessment of each business opportunity the book looks at sources of finance and private equity shows how to write a successful business plan details the entire investment process and considers the tax and legal issues involved a particular feature of the book is that it looks at the topic from both sides showing what the venture capitalist is looking for as well as detailing how an entrepreneur or business owner can make proposals attractive to those investors this means that the reader will be able to minimize time wasted on unnecessary activities and therefore develop investment approaches which are succinct relevant and give every chance of success
