Foundations for Population Health in Community/Public Health Nursing - E-Book

2017-09-20

Congress has long sought through legislation and oversight to protect the United States against terrorist threats especially from chemical biological radiological and nuclear CBRN weapons. Radiological dispersal devices (RDDs) are one type of CBRN weapon. Explosive driven dirty bombs are an often discussed type of RDD though radioactive material can also be dispersed in other ways. This report provides background for understanding the RDD threat and responses and presents issues for Congress. Appendices: technical background, some U.S. vulnerabilities to RDDs, charts and tables. This is a print on demand edition of an important hard to find publication.
