The danger with snow is that there is always the risk of an avalanche. Snow, ice, and rocks can slide down the mountain at speeds of up to 120 miles per hour. Temperature is also a concern. Iminds brings targeted knowledge to your reading device with short information segments to whet your mental appetite and broaden your mind.

Thrilling Adventures and Daring Deeds of Lieut. Benjamin Everest and Others 1904 High Crimes is journalist Michael Kodas's gripping account of life on top of the world where man is every bit as deadly as Mother Nature. In the years following the publication of *Into Thin Air*, much has changed on Mount Everest. Among all the books documenting the glorious adventures in mountains around the world, none details how the recent infusion of wealthy climbers is drawing crime to the highest place on the planet. The change is caused both by a tremendous boom in traffic and a new class of parasitic and predatory adventurer. It's likely that Jon Krakauer would not recognize the camps that he visited on Mount Everest almost a decade ago. This book takes readers on a harrowing tour of the criminal underworld on the slopes of the world's most majestic mountain. High Crimes describes two major expeditions: the tragic story of Nils Antezana, a climber who died on Everest after he was abandoned by his guide, as well as the author's own story of his participation in the Connecticut Everest Expedition, guided by George Dimarescu and his wife and climbing partner Lhakpa Sherpa Dimarescu, who at first seemed well intentioned and charming, turned increasingly hostile to his own wife as well as to the author and the other women on the team. By the end of the expedition, the three women could not travel unaccompanied in base camp due to the threat of violence. Those that tried to stand against the violence and theft found that the worst of the intimidation had followed them home to Connecticut: beatings, thefts, drugs, prostitution, coercion, threats, and abandonment. On the highest slopes of Everest and other mountains, these have become the rule rather than the exception. Kodas describes many such experiences and explores the larger issues these stories raise with thriller-like intensity.

Sport & Action: Climbing Everest 2014-05-14 When Yi stumbles upon a scared yeti hiding on her roof, she knows exactly what to do: she has to help him make the journey home. But for Everest, the yeti home is 3,000 miles away in the Himalayan mountains. It's going to be a long journey, but one thing is certain.

High Crimes 2008-02-05 In the spring of 1996, Lou Kasischke joined renowned climber Rob Hall's Mount Everest expedition. When he said goodbye to his wife Sandy, he knew he faced major physical and mental challenges: against rock, snow, ice, avalanches, and extreme high altitude to climb the highest mountain in the world. What Lou didn't know was that he also stood at the threshold of a living hell. Six weeks later, near the top, things went wrong. Lou and his fellow climbers faced a challenge even greater than the mountain: the internal struggle about what to do when you are close but out of time. There were no second chances. Decisions were made; some lived, some died. It was the worst tragedy in Mount Everest history. Lou wrote his account of the events 16 years ago in the aftermath of the tragedy, but only now is he ready to let it go. He tells two stories: one is about the historic events, his perspective and analysis about what happened and what went wrong, have never been told, and his account differs markedly from what others have written. The truth in the story depends on who is telling it. Lou Kasischke believes that some of the truth may never be told. Lou also tells a very personal story about how he came back home, an inspiring story about where to go for inner strength when facing a tough decision, a story about his wife Sandy's part in his survival, a story about what he heard after the wind, the voice of the heart, a love story.

Yi's Journey Home 2019-08-20 Full of courage, humor, friendship, and faith, this is the remarkable story of the youngest Englishman to climb Mount Everest. He endured over 70 days on Everest's southeast face and narrowly escaped death when he fell into a crevasse at 19,000 feet. At the age of 23, he overcame weather conditions and months of limited sleep to reach the summit.

The Kid who Climbed Everest 2001 A unique book of letters from the 1953 Everest expedition.

published to coincide with the 60th anniversary in this touching book unpublished letters from the George Lowe collection are brought together for the first time to describe the day to day moments of the historic 1953 Everest expedition. Lowe met Hillary while working in New Zealand's Southern Alps just after the war and struck up a friendship. Little did he know it would be the beginning of a journey to the highest altitudes and latitudes of the planet. In 1953, Lowe was invited to be part of the successful Everest expedition where he was an integral part in the success of the venture. As often as he could, George wrote letters home to his family but the letters were more than just news. George also wrote in case he and his friend Hillary never returned to tell the tale. These rare letters now allow us to travel back in time to join his companions every step of the way. A vivid behind-the-scenes witness of a climb that would make history in clear and elegant prose, this is a unique testimony of a superlative human achievement as we celebrate sixty years of endeavour since this first ascent. Many nations lift their eyes to the summit and this book shares in the joy and the challenge of this remarkable mountain. Contains a foreword by Jan Morris, Times correspondent on the 1953 Everest expedition and afterword by Peter Hillary.

Tokyo, My Everest 1995-09 from the outside Everest has it all but there's only one girl who can see him for who he truly is. High school senior Everest is the most popular guy in school on the surface: handsome, wealthy, and captain of the football team. But inside, desperately unhappy, depressed, and suicidal, he tries to take his life. Beverly is the exact opposite: quiet, shy, and hard working. She'd rather spend her time in the library, distracting herself from her less than perfect home life. Everest returns to school in more pain than ever, discarded by his friends and girlfriend. He is totally isolated but when Beverly and Everest meet unexpectedly in a dusty corner of the library, together they discover how just how rich life can be. How love, tenderness, and acceptance can change their lives forever. A sensitive, heartfelt, own-voices love story about finding your inner strength. Perfect for fans of Nicola Yoon and all the bright places.

Letters from Everest 2013 the local prisons of the latter half of the nineteenth century refined systems of punishment so harsh that one judge considered the maximum penalty of two years local imprisonment to be the most severe punishment known to English law next only to death. This work examines how private perceptions and concerns became public policy. It also traces the move in English government from the rural and aristocratic to the urban and more democratic. It follows the rise of the powerful elite of the higher civil service, describes some of the forces that attempted to oppose it, and provides a window through which to view the process of state formation.

Saving Everest 2019-10-10 their achievement provided one answer to the many questions about high altitude survival which had been asked from the beginning of the century. Their climb was the culmination of a siege style effort in the expedition led by Sir John Hunt. Indeed, it provided the blueprint for the first ascents of the majority of the remaining 800 metre peaks. Through the next decade, today Everest has been climbed by all its formidable ridges and each of its great faces. It has been climbed without supplementary oxygen. It had been soloed and parapentented off but the original ascent remains a classic story of exploring new thresholds and reaching out to achieve the highest point in the world.

English Local Prisons, 1860-1900 2018-10-24 the fight for Everest 1924 is the official record of the third expedition to Everest. The compelling narrative by Norton and other expedition members and Mallory's vivid letters home present a gripping picture of life in the Himalayas. Notes and observations from the entire team show how far knowledge of the mountain and of high altitude climbing had advanced by 1924 and make recommendations for future Everest attempts.
