Building Business Acumen for Trainers

2006-09-22

star gate is the largest funded program in the history of psi research receiving about 19 933 million in funding from 1972 to 1995 researchers from sri international and later at science applications international corporation in association with various u s intelligence agencies participated in this program using the remote viewing method research focused on understanding the applicability and nature of psi in general but mostly upon informational psi volume 1 remote viewing 1972 1984 and volume 2 remote viewing 1985 1995 include all aspects of rv including laboratory trials and several operational results volume 3 psychokinesis focuses on laboratory investigations volume 4 operational remote viewing government memorandums and reports includes an analysis of the applied remote viewing program and a selection of

documents that provide a narrative on the behind the scenes activities of star gate in a total of 504 separate missions from 1972 to 1995 remote viewing produced actionable intelligence prompting 89 percent of the customers to return with additional missions the star gate data indicate that informational psi is a valid phenomenon these data have led to the development of a physics and neuroscience based testable model for the underlying mechanism which considers informational psi as a normal albeit atypical phenomenon the star gate data found insufficient evidence to support the causal psi psychokinesis hypothesis
