*Journal* 1860 sometimes presumed to be a mere relic of british colonialism the anglican church in burma myanmar has its own complex identity intricately interwoven with beliefs and traditions that predate the arrival of christianity in this essential volume edward jarvis succinctly reconstructs this history and demonstrates how burma s unique voice adds vital context to the study of anglicanism s predicament and the future of worldwide christianity over the past two hundred years the anglican church in burma has seen empires rise and fall anglican christians survived the brutal japanese occupation experienced rampant poverty and environmental disaster and began a tortuous and frustrating quest for peace and freedom under a lawless dictatorship using a range of sources including archival documents and the firsthand accounts of anglicans from a variety of backgrounds jarvis tells the story of the church s life beyond empire exploring how christians of non western heritage remade the church after a significant part of its liturgical documents and literature was destroyed in world war two and how more recently the church has gained attention for its alignment with influential conservative and orthodox movements within anglicanism comprehensive and concise this fascinating history will appeal to scholars and students of religious studies world christianity church history and the history of missions and theology as well as to clergy seminarians and those interested in the current crises and future direction of anglicanism

**Calendar of State Papers, Domestic Series, of the Reign of Charles II** 1863 not for turning is the first volume of charles moore s authorized biography of margaret thatcher the longest serving prime minister of the twentieth century and one of the most influential political figures of the postwar era charles moore s biography of margaret thatcher published after her death on 8 april 2013 immediately supercedes all earlier books written about her at the moment when she becomes a historical figure this book also makes her into a three dimensional one for the first time it gives unparalleled insight into her early life and formation especially through her extensive correspondence with her sister which moore is the first author to draw on it recreates brilliantly the atmosphere of british politics as she was making her way and takes her up to what was arguably the zenith of her power victory in the falklands this volume ends with the falklands dinner in downing street in november 1982 moore is clearly an admirer of his subject but he does not shy away from criticising her or identifying weaknesses and mistakes where he feels it is justified based on unrestricted access to all lady thatcher s papers unpublished interviews with her and all her major colleagues this is the indispensable fully rounded portrait of a towering figure of our times

**Calendar of State Papers** 1866 despite for many years receiving the highest per capita aid worldwide the economies of the west bank and gaza strip have failed to achieve any lasting developmental outcomes and suffer from major weaknesses which undermine their very survival this book argues that the dominant mainstream approach to the study of aid and aid effectiveness is theoretically and empirically inadequate for a comprehensive understanding and analysis of the workings of aid in developing countries particularly those undergoing conflict this book examines the nature of donor operations in palestine highlighting the political and ideological determinants of aid allocation and effectiveness and focussing on the role of trade related donor assistance in palestine more commonly known as aid for trade it discusses how such trade related assistance is only another instance of donors working around the conflict as opposed to taking it into account and how aid to palestine cannot bring about significant improvement as long as the palestinian economy is fundamentally affected by israeli occupation settlements and blockade it argues that unless restructured and more carefully targeted aid can only act as a temporary relief mechanism furthermore the book sheds light on critical areas within palestinian territories that are in need of development and require significant and immediate attention at both national and international level

Monthly Catalog, United States Public Documents 1933 whilst there is extensive literature analysing the design and function of new buildings and places the actual process through which development proposals are actually fashioned through complex negotiation and deal making involving many different stakeholders with different agendas is largely undocumented conventional planning theory tends to assume a logical rational and linear decision making process which bears little relationship to reality this book aims to shed some light on that reality the king s cross scheme is one of the largest and most complex developments taking place in britain today the planning negotiations

which took six years were probably some of the most exhaustive debates around a development ever a report of over 600 pages of technical information was eventually presented to the committee and after two evenings and ten hours of presentations and debate the committee approved the scheme by just two votes

Calendar of State Papers, Preserved in the State Paper Department of Her Majesty's Public Record Office 1870 the striking appearance of luftwaffe s mistel composite attack aircraft might seem ridiculous to modern eyes but employed correctly these original fire and forget weapons were devastatingly effective as allied sources testify this book draws on a wealth of first hand reports and revealing contemporary photographs to tell the full strange story of the mistel units they were the product of a remarkable mix of desperation and innovation and were actually grounded in a pre war non military practise the mounting of one aircraft atop another was initially conceived to extend the ranges of passenger and mail carrying aircraft but as early as 1942 german planners saw the potential for use as a guided missile and by the end of the war the sight of a ju 88 lashed to a bf 109 or fw 190 fighter bearing down on an allied target was not as rare as one might expect this is a comprehensive account of the mistel units from their design and development through the first deployments at d day to the last desperate missions against key bridges on the oder and the neisse in the final weeks of the war
