Dreaming the Graphic Novel

2020-01-17

winner of the best book award in comics history from the grand comics database honorable mention 2019 2020 research society for american periodicals book prize the term graphic novel was first coined in 1964 but it wouldn't be broadly used until the 1980s when graphic novels such as watchmen and maus achieved commercial success and critical acclaim what happened in the intervening years after the graphic novel was conceptualized yet before it was widely recognized dreaming the graphic novel examines how notions of the graphic novel began to coalesce in the 1970s a time of great change for american comics with declining sales of mainstream periodicals the arrival of specialty comics stores and at least initially a thriving underground comix scene surveying the eclectic array of long comics narratives that emerged from this fertile period paul williams investigates many texts that have fallen out of graphic novel history as he demonstrates the question of what makes a text a graphic novel was the subject of fierce debate among fans creators and publishers inspiring arguments about the literariness of comics that are still taking place among scholars today unearthing a treasure trove of fanzines adverts and unpublished letters dreaming the graphic novel gives readers an exciting inside look at a pivotal moment in the art form's development

Legend: The Graphic Novel

2015-04-28

born into an elite family in one of the republic's wealthiest districts fifteen year old june is a military prodigy born into the slums of the republic's lake sector fifteen year old day is the country's most wanted criminal but his motives are not as sinister as they often seem one day june's brother is murdered and day becomes the prime suspect now day is in a race for his family's survival while june tries desperately to avenge her brother's death and the two uncover the truth of what has really brought them together and the lengths their country will go to in order to keep its secrets

On the Graphic Novel

2015-06-10

a noted comics artist himself santiago garcía follows the history of the graphic novel from early nineteenth century european sequential art through the development of newspaper strips in the united states to the development of the twentieth century comic book and its subsequent crisis he considers the aesthetic and entrepreneurial innovations that established the conditions for the rise of the graphic novel all over the world garcía not only treats the formal components of the art but also examines the cultural position of comics in various formats as a popular medium typically associated with children often viewed as unedifying and even at times as a threat to moral character comics art has come a long way with such examples from around the world as spain france germany and japan garcía illustrates how the graphic novel with its increasingly global and aesthetically sophisticated profile represents a new model for graphic narrative production that empowers authors and challenges longstanding social prejudices against comics and what they can achieve
