association reveals the invisible but immense impact that consumerism has had on the fabric of our families and communities recommends how we can create richer more fulfilling lives and break our dependency on the consumer economy this book is about a new possibility for us together to discover the real basis for a satisfying life it is a life that becomes possible when we join our neighbors in creating a community that nurtures our family and makes us useful citizens we are besieged by messages from consumer society telling us that we are insufficient that we must purchase what we need from specialists and systems outside the community we outsource our health care child care relationships recreation our safety and our satisfaction we are trained to become consumers and clients not citizens and neighbors mcknight and block take a thoughtful look at how this situation came about what maintains it and the crippling effect it has had on our families our communities and our environment right in our neighborhood we have the capacity to address our human needs in ways that systems which see us only as interchangeable units as problems to be solved never can we all have gifts to offer even the most seemingly marginal among us it does not matter how rich or poor the neighborhood is mcknight and block suggest how to nurture voluntary self organizing structures

reveal these gifts and allow them to be shared to the greatest mutual benefit they recommend roles we can assume and actions we can take to reweave the social fabric that has been unraveled by consumerism and its belief that however much we have it is not enough

Classroom Management

Summary of Alfie Kohn's Punished by Rewards

2022-03-25T22:59:00Z

please note this is a companion version not the original book sample book insights 1 the core of pop behaviorism is do this and you ll get that the wisdom of this technique is rarely questioned we take for granted that this is the logical way to raise children teach students and manage employees 2 rewards are used long before a theory was developed to explain and systematize their practice they were used by frederick w taylor to encourage maximum efficiency in production at a factory and by the first public school in new york city to manage the behavior of schoolchildren 3 skinner believed that everything we do can be explained by the principle of reinforcement he believed that organisms are just repertoires of behaviors that can be fully explained by outside forces he said that there is no self as we usually use the term 4 the book gives the impression that someone else is telling the story someone who doesn t care much about him it is not a big stretch to reduce creativity to a series of novel behaviors selected by the environment and

Handbook of Classroom Management

2013-10-31

classroom management is a topic of enduring concern for teachers administrators and the public it consistently ranks as the first or second most serious educational problem in the eyes of the general public and beginning teachers consistently rank it as their most pressing concern during their early teaching years management problems continue to be a major cause of teacher burnout and job dissatisfaction strangely despite this enduring concern on the part of educators and the public few researchers have chosen to focus on classroom management or to identify themselves with this critical field the handbook of classroom management has four primary goals 1 to clarify the term classroom management 2 to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers managerial tasks 3 to bring together disparate lines of research and encourage conversations across different areas of inquiry and 4 to promote a vigorous agenda for future research

The Key Elements of Classroom Management

2003

the golden age of antibiotics is over deadly
new organisms resistant to all known
antibiotics are emerging all over the planet
and gaining ground fast it s over the truth is
the comfortable world as we have known it for
the last 60 years is coming rapidly to an end
bacteria are deadly and the short period of
time where we were able to control them is
vanishing fast because of their fantastic
power of multiplication doubling every 20
minutes or so that new strain could be all
over the earth within months or even weeks you
ve heard of mrsa everyone has heard of mrsa
but did you know that in 2009 an even more
virulent new strain of mrsa emerged that is
five times more deadly and kills 50 of its
victims but it s not just mrsa now we have vre

vancomycin resistant enterococcus which is far more deadly than mrsa 100 fatal septicemia also we now have prsp penicillin resistant streptococcus pneumoniae it is reported that out of 100 000 hospitalizations for pneumonia 40 are now due to this organism and don t forget resistant syphilis is back on the loose syphilis lues was one of the most feared of all diseases for centuries and kept young men and women in terror of the act of sexual union our old enemy tb is on the prowl too with a new strain which is classed mdr multiple drug resistant in germany in the summer of 2011 a deadly new strain of e coli emerged that is highly resistant to antibiotics and killed hundreds in europe on it s unstoppable rampage if you are not worried about this deteriorating position you should be false reliance on drugs and pharma medicine has proven to be a weak strategy the game is lost the truth is you can t hold back bacteria they are too overwhelmingly numerous and powerful but there is good news in the days before antibiotics not everyone died of their infections there were scores of great workable non drug solutions to infections these remedies still work you need to get to know them get re acquainted with our folklore and natural heritage again and fast you never know when the next outbreak will sweep your neighborhood it s important to strengthen the grid

immune defenses of course but you also need to go on a short education course of learning what your antibiotic alternative options are to make it easy for you dr keith has compiled a comprehensive report of all the suitable alternatives with scientific studies to support them you ll be amazed just how many humble home remedies and plant based solutions have been studied scientifically and demonstrated to work effectively plus he has given you lots of very modern possibilities that were not even dreamed of in the era before antibiotics this is the authority report you have been waiting for dr keith is well known for demanding minimum scientific standards not just myth wise woman stories and ignorant conjecture

An Educator's Guide to Classroom Management

2004

born out of a passionate interest in environmental education linda sartor began experimenting with consensus decision making in her public school classrooms this book reports on what she did and what she discovered in the process she found that consensus in the classroom works as both an instructional strategy and a classroom management approach and fosters a lively learning community it both requires and generates a paradigm shift in a teacher s relationship with students and students relationships with each other this book will inspire and assist educators to use the consensus process in and out of the classroom

Consensus in the Classroom

2004

argues that competition is inherently destructive and that competitive behavior is culturally induced counter productive and causes anxiety selfishness self doubt and poor
