originally published by oxford in 1998 psycho oncology was the first comprehensive text in the field and remains the gold standard today edited by a team of leading experts in psycho oncology spearheaded by dr jimie c holland the founder of the field the text reflects the interdisciplinary nature and global reach of this growing field thoroughly updated and developed in collaboration with the american psychosocial society and the international psycho oncology society the third edition is a current comprehensive reference for psychiatrists psychologists oncologists hospice workers and social workers seeking to understand and manage the psychological issues involved in the care of persons with cancer and the psychological social and behavioral

factors that contribute to cancer risk and survival new to this edition are chapters on gender based and geriatric issues and expanded coverage of underserved populations community based programs and caregiver training and education

Supreme Court Economic Review, Volume 23

2016-01-21

there is a profound crisis in the united states foster care system jill duerr berrick writes in this expertly researched passionately written book no state has passed the federally mandated child and family service review two thirds of the state systems have faced class action lawsuits demanding change and most tellingly well over half of all children who enter foster care never go home the field of child welfare has lost its way and is neglecting its fundamental responsibility to the most vulnerable children and families in america the family stories berrick weaves throughout the chapters provide a vivid backdrop for her statistics amanda raised in foster care began having children of her own while still a teen and lost them to the system when she became addicted to drugs tracy brought up by her schizophrenic single mother gave birth to the first of eight children at age fourteen and saw them all shuffled through foster care as she dealt drugs and went to prison both they and the other individuals that berrick features spent years without adequate support from social workers or the government before finally achieving a healthier life many people never do but despite the clear crisis in child welfare most calls for reform have focused on unproven prevention methods not on improving the situation for those already caught in the system berrick argues that real child welfare reform will only occur when the centerpiece of child welfare reunification permanency and foster care is reaffirmed take me home reminds us that children need long term caregivers who can help them develop and thrive when troubled parents can t change enough to permit reunification alternative permanency options must be pursued and no reform will matter for the hundreds of thousands of children entering foster care each year in america unless their experience of out of home care is considerably better than the one many now experience take me home offers prescriptions for policy change and strategies for parents social workers and judges struggling with permanency decisions readers will come away reinvigorated in their thinking about how to get children to the homes they need

Granville Hicks: an Annotated Bibliography

1968

from st louis to new orleans from baltimore to oklahoma city there are poor and minority neighborhoods so beset by pollution that just living in them can be hazardous to your health due to entrenched segregation zoning ordinances that privilege wealthier communities or because businesses have found the paths of least resistance there are many hazardous waste and toxic facilities in these communities leading residents to experience health and wellness problems on top of the race and class discrimination most already experience taking stock of

the recent environmental justice scholarship toxic communities examines the connections among residential segregation zoning and exposure to environmental hazards renowned environmental sociologist dorceta taylor focuses on the locations of hazardous facilities in low income and minority communities and shows how they have been dumped on contaminated and exposed drawing on an array of historical and contemporary case studies from across the country taylor explores controversies over racially motivated decisions in zoning laws eminent domain government regulation or lack thereof and urban renewal she provides a comprehensive overview of the debate over whether or not there is a link between environmental transgressions and discrimination drawing a clear picture of the state of the environmental justice field today and where it is going in doing so she introduces new concepts and theories for understanding environmental racism that will be essential for environmental justice scholars a fascinating landmark study toxic communities greatly contributes to the study of race the environment and space in the contemporary united states

the doctoral thesis investigates various strategies in the area of going and being international of retail firms which is of undisputable relevance due to the fairly narrow research status and the increasing internationalization of retail activities issues are investigated concerning the choice of retail market entry modes i e the form of institutional arrangements that retailers use when entering foreign markets the retail format transfer i e the management of internal processes and the external marketing program elements and the coordination of retail activities i e the implementation of the marketing program by the organizational structure regarding this three important research questions are addressed 1 how do choose retailers their market entry mode in the area of conflict between full and shared controlled modes and how is this decision influenced by the

internal and external environment 2 how can international retailers transfer their retail format successfully to foreign countries by standardizing or adapting the internal and external elements of their retail format 3 how can retailers successfully coordinate the implementation of their retail marketing program to culturally diversified markets these questions are investigated on the basis of established theories applied from the international management literature such as institutional theory the resource based view and the profit maximization theory on the basis of comprehensive primary and secondary datasets important implications are drawn for research and practice
