separation of architecture interior design and the fine arts and limited the development of humanistic architectural space this book of ideas helps to close this gap by explaining and illustrating principles of interior architecture that are based on a spatial point of view the authors unveil the essence of ideas that generate physical form and space as well as emphasize that interior architecture must be regarded as a union of disciplines they focus on philosophical concepts that make up the history of interior architecture and juxtapose historical and modern examples to explain underlying design principles exposing the links between art architecture and interior design particular attention is given to how fusion of interior architecture with other disciplines maximizes the potential of design to provide for human accommodation comfort and pleasure key topics discussed include three dimensional development respect for the enclosing architecture sensitivity to human experience the primacy of light and color and furnishings as an extension of architecture case studies of historical contemporary and unbuilt examples reveal the reasons behind the creation of designs and the decision making that accompanied execution of these designs these examples provide insights into key specialities such as renovation uses of the computer and adaptive reuse quotes from artists architects and designers reinforce the philosophy revealed by the studies concepts from related fields such as physics music cinema literature painting sculpture and other fields are included to clarify the creative process among the important areas addressed are the relevance of the fourth dimension as the most profound element of design how light as the quintessence of spatial definition has been used to define space by masters such as le corbusier kahn aalto and wright the evolution of retail commercial residential and hospitality space from early examples to the present the emotional character of interior space established by color how furnishings in dialogue with the enclosure provide intimate human comfort how persisting styles express the spirit of the era more than architecture and interior design through the 18th century and architecture and interior design from the 19th century since the publication of edward said s groundbreaking work orientalism 35 years ago numerous studies have explored the west s fraught and enduring fascination with the so called orient focusing their critical attention on the literary and pictorial arts these studies have to date largely neglected the world of interior design oriental interiors is the first book to fully explore the formation and perception of eastern inspired interiors from an orientalist perspective orientalist spaces in the west have taken numerous forms since the 18th century to the present day and the fifteen chapters in this collection reflect that diversity dealing with subjects as varied and engaging as harems turkish baths on rms titanic parisian bachelor quarters potted palms and contemporary yoga studios it explores how furnishings surface treatments ornament and music for example are deployed to enhance the exoticism and pleasures of oriental spaces looking across a range of international locations organized into three parts each introduced by the editor the essays are grouped by theme to highlight critical paths into the intersections between orientalist studies spatial theory design studies visual culture and gender studies making this essential reading for students and researchers alike room for enjoyment is an enjoyable fast paced read set in 1976 it focuses on the daily workings of a new york city interior design office among other projects discussed eaton downing is asked to design a palatial estate for moose abrams a macho fifty four year old businessman for his twenty eight year old chorus girl bride dolly the home will be called the doll s house and has to include eight bedrooms all executed in various period styles and must be completed for an important bastille day party moose plans to give for three hundred of his closest friends problems arise and eaton worries if he will have time to complete by the assigned date a love story involves eaton and a couture friend leigh beltor who designs the period gowns dolly will wear in the rooms a surprise ending and a glossary of unfamiliar design term s makes it a perfect reading for anyone interested in interior decoration originally intended for graduates converting to interior design and part inspired by texts such as the ways of seeing by john berger a prologue to interior design is an informal and largely theoretical introduction to a selection of thoughts involved in the process of interior design a history of interior design tells the story of 6 000 years of domestic and public space it s an essential resource for students professionals and anyone interested in interior design the decorative arts architecture and art history it explores a broad range of styles and movements weaving together a fascinating narrative from cave dwellings and temple architecture through gothic designer john fowler was responsible for transforming some of britain s most important historic interiors this review of fowler s work offers an important discussion of the treatment of historic interiors and highlights his concern to create visually successful rooms rather than to merely replicate earlier interiors the intent of this book is to provide the interior design student a well rounded knowledge of autodesk revit tools and techniques these skills can then be applied to enhance professional development in both academia and industry the overall premise of the book is to learn revit while developing the interior of a two story law office the reader is provided an architectural model with established columns beams exterior walls minimal interior walls and roofs in which to work this allows more emphasis to be placed on interior design rather than primary architectural elements the chapters chronology generally follows

the typical design process students will find this book helps them more accurately and efficiently develop their design ideas and skills the first chapter introduces the reader to revit building information modeling bim and the basics of opening saving and creating a new project the second provides a quick introduction to modeling basic elements in revit including walls doors windows and more this chapter is designed to show students how powerful revit is and hopefully make them more excited about learning it the remainder of the book is spent developing the interior space of the law office with an established space program a student will learn how to view and navigate within the provided 3d architectural model managing and creating materials and develop spaces with walls doors and windows once all the spaces are added to the model several areas are explored and used as the basis to cover revit commands and workflows at the end of this tutorial the reader will be able to model floor finishes ceilings with soffits casework custom reception desk restrooms furniture and light fixtures additional features such as tags schedules and photo realistic rendering will be covered designer john wheatman has narrowed his design philosophy into 21 ideas you can incorporate in your own home whatever the size or budget
