Gender, Science and Technology: Perspectives from Africa *2008*

this sixth volume of the codesria gender series is a collection of discourses perspectives practices and policies on the role of the female gender in science and technology particularly in the african context although widely advocated as the indisputable foundation for political and economic power in the modern world science and technology remains marked by various layers and dimensions of gender inequality that work to the disadvantage of girls and women despite the fact that a lot of awareness has been created and gender issues are now more readily acknowledged by various development initiatives in africa participation in science and technology still remains a hurdle as far as girls and women are concerned a common theme that runs through the book is how feminine identities ideologies of domesticity and gender stereotypes and the inadequacy or lack of clear policies facilitate the invisibility of women in science and technology this notwithstanding women have never ceased devising clever and ingenious ways that would enable them to master nature from the margins the book provides a window onto the current state of female participation in science and technology in africa along with an analysis of the historical backgrounds current educational and professional contexts and prospects for the future while it is evident that more research needs to be done with more groups in different regions this volume brings together a rich and inspiring collection of qualitative insights on gender science and technology in africa the codesria gender series acknowledges the need to challenge the masculinities underpinning the structures of repression that target women the series aims to keep alive and nourish african social science research with insightful research and debates that challenge conventional wisdom structures and ideologies that are narrowly informed by caricatures of gender realities it strives to showcase the best in african gender research and provide a platform for emerging new talents to flower

Vocationalisation of Secondary Education Revisited *2006-03-30*

the book is a cutting edge contribution to the debate which has occurred for some time on the pros and cons of secondary education becoming more closely and explicitly related to preparing young people for the world of work the book provides concrete examples of the vocationalisation of secondary education with particular reference to the situation in africa

the target audience for the book includes policy makers practitioners administrators education planners researchers teachers and teacher educators with a concern about the relationship between secondary education and education for the world of work with particular reference to technical and vocational education and training tvet the book appears in the springer book series on technical and vocational education and training issues concerns and prospects and compliments the international handbook of technical and vocational education and training and other publications in the international library of tvet all of which are publications of the unesco unevoc international centre for tvet in bonn germany

Kenya Farmer 2005

this book presents the combined proceedings of the 12th kips international conference on ubiquitous information technologies and applications cute 2017 and the 9th international conference on computer science and its applications csa2017 both held in taichung taiwan december 18 20 2017 the aim of these two meetings was to promote discussion and interaction among academics researchers and professionals in the field of ubiquitous computing technologies these proceedings reflect the state of the art in the development of computational methods involving theory algorithms numerical simulation error and uncertainty analysis and novel applications of new processing techniques in engineering science and other disciplines related to ubiquitous computing james j jong hyuk park received ph d degrees in graduate school of information security from korea university korea and graduate school of human sciences from waseda university japan from december 2002 to july 2007 dr park had been a research scientist of r d institute hanwha s c co ltd korea from september 2007 to august 2009 he had been a professor at the department of computer science and engineering kyungnam university korea he is now a professor at the department of computer science and engineering and department of interdisciplinary bio it materials seoul national university of science and technology seoultech korea dr park has published about 200 research papers in international journals and conferences he has been serving as chair program committee or organizing committee chair for many international conferences and workshops he is a steering chair of international conferences mue futuretech csa cute ucawsn world it congress jeju he is editor in chief of human centric computing and information sciences hcis by springer the journal of information processing systems jips by kips and journal of convergence joc by kips cswrg he is associate editor editor of 14 international journals including jos jnca scn cj and so on in addition

he has been serving as a guest editor for international journals by some publishers springer elsevier john wiley oxford univ press emerald inderscience mdpi he got the best paper awards from isa 08 and itcs 11 conferences and the outstanding leadership awards from ieee hpcc 09 ica3pp 10 iee ispa 11 pdcat 11 ieee aina 15 furthermore he got the outstanding research awards from the seoultech 2014 his research interests include iot human centric ubiquitous computing information security digital forensics vehicular cloud computing multimedia computing etc he is a member of the ieee ieee computer society kips and kmms vincenzo loia bs 85 ms 87 phd 89 is full professor of computer science his research interests include intelligent agents ambient intelligence computational intelligence currently he is founder editor in chief of ambient intelligence and humanized computing and co editor in chief of softcomputing springer verlag he is chair of the task forces intelligent agents and ambient intelligence ieee cis ettc he has been chair the emergent technical committe emergent technology ieee cis society and vice chair of intelligent systems applications technical committee he has been author of more than 200 scientific works editor co editor of 4 books 64 journal papers 25 book chapters and 100 conference papers he is senior member of the ieee associate editor of ieee transactions on industrial informatics and associate editor of ieee transactions on systems man and cybernetics systems many times reviewers for national and international projects dr loia is active in the research domain of agents ambient intelligence computational intelligence smartgrids distributed platform for enrich added value gangman yi in computer sciences at texas a m university usa in 2007 and doctorate in computer sciences at texas a m university usa in 2011 in may 2011 he joined system s w group in samsung electronics suwon korea he joined the department of computer science engineering gangneung wonju national university korea since march 2012 dr yi has been researched in an interdisciplinary field of researches his research focuses especially on the development of computational methods to improve understanding of biological systems and its big data dr yi actively serves as a managing editor and reviewer for international journals and chair of international conferences and workshops yunsick sung received his b s degree in division of electrical and computer engineering from pusan national university busan korea in 2004 his m s degree in computer engineering from dongguk university seoul korea in 2006 and his ph d degree in game engineering from dongguk university seoul korea in 2012 he was employed as a member of the researcher at samsung electronics between 2006 and 2009 he was the plural professor at shinheung college in 2009 and at dongguk university in 2010 his main research interests are many topics in brain computer interface programming by demonstration ubiquitous computing and reinforcement learning his journal service

experiences is associate editor at human centric computing and information sciences springer 2015 current

The Kenya Education Directory *2005*

this annual report examines the key trends and developments most notably the demise of borders that shaped the 2011 computer book market

Advances in Computer Science and Ubiquitous Computing *2017-12-19*

here is a straightforward skills based guide to using frontpage efficiently by not getting bogged down in theory this book puts the reader in the driver s seat like other books in the no experience required series readers will learn effective creation techniques through hands on experience and scores of real world examples
