this study brings together three major areas of interest history postmodern fiction and myth whereas neither history and postmodern fiction nor history and myth are strangers to one another postmodernism and myth are odd bedfellows for many critics postmodern thought with its resistance to metanarratives stands in direct and deliberate contrast to myth with its apparent tendency to explain the world by means of neat complete narratives there is a strain of postmodern canadian historical fiction in which myth actually forms a complement not only to postmodernism s suspicion of master narratives but also to its privileging of those marginal and at times ignored areas of history the fourteen works of canadian fiction considered demonstrate a doubled impulse which at first glance seems contradictory on the one hand they go about demythologizing in the barthesian sense various elements of historical discourse exposing its authority as not simply a natural given but as a construct this includes the fact that the view of history portrayed in the fiction has been either underrepresented or suppressed by official historiography on the other hand the history is then re mythologized in that it becomes part of a pre existing myth its mythic elements are foregrounded myth and magic are woven into the narrative or it is portrayed as extraordinary in some way the result is an empowering of these histories for the future they are made larger than life and unforgettable

since his first publication in 1942 Luis Leal has likely done more than any other writer or scholar to foster a critical appreciation of Mexican Chicano and Latin American literature and culture. This volume bringing together a representative selection of Leal's writings from the past sixty years is at once a wide-ranging introduction to the most influential scholar of Latino literature and a critical history of the field as it emerged and developed through the twentieth century. Instrumental in establishing Mexican literary studies in the United States, Leal's writings on the topic are especially instructive, ranging from essays on the significance of symbolism, culture, and history in early Chicano literature to studies of the more recent use of magical realism and of individual new Mexican, Tejano, and Mexican authors such as Juan Rulfo, Carlos Fuentes, José Montoya, and Mariano Azuela. Clearly and cogently written, these writings bring to bear an encyclopedic knowledge, a deep understanding of history and politics, and an unparalleled command of the aesthetics of storytelling, from folklore to theory. This collection affords readers the opportunity to consider or reconsider Latino literature under the deft guidance of its greatest reader.
