The Direct Cinema of David and Albert Maysles *2010-08-20*

boldly signifying the cultural issues of the 1960s and 1970s in groundbreaking pieces such as grey gardens gimme shelter and showman filmmakers and brothers david and albert maysles used an approach to documentary film that involved spontaneous observation of naturally occurring events with no rehearsed footage and no preconceived plots their revolutionary work eschewed the authoritative voice over narrator didactic scripts and the traditional problem and solution format used by the majority of their predecessors in the genre and duly influenced subsequent directors in both fiction and nonfiction film their collaboration from 1962 until david s death in 1987 wrought thirteen major works in which the brothers critiqued the concept of celebrity with unglamorous footage of iconic figures explored how commercialism hinders communication and questioned the possibility of seeing anything clearly in a world abounding with both real and constructed images jonathan b vogels outlines how the maysles brothers blended a unique amalgam of direct cinema characteristics a modern humanist aesthetic and a collaborative working process

that included other directors and editors looking at the films as both shapers and reflections of american culture he points out that the works offer insights into a wide range of contemporary topics including materialism celebrity modern art and the american family in addition to describing the changes in technology that made direct cinema possible vogels provides careful scene by scene analyses that allow for a consideration of the maysles brothers films as films a tactic not frequently employed in nonfiction film studies

David Cronenberg 2021-03-15

from his early horror movies including *Scanners*, *Videodrome*, *Rabid*, and *The Fly* with their exploding heads, mutating sex organs, rampaging parasites, and scientists turning into insects, to his inventive adaptations of books by William Burroughs, *Naked Lunch*, Don DeLillo's *Cosmopolis*, and Bruce Wagner's *Maps to the Stars*. Canadian director David Cronenberg (b. 1943) has consistently dramatized the struggle between the aspirations of the mind and the messy realities of the flesh. I think of human beings as a strange mixture of the physical and the non-physical, and both of these things have their say at every moment we're alive, says Cronenberg. My films are some kind of strange, metaphysical passion play, moving deftly between genre and arthouse filmmaking, and between original screenplays and literary adaptations. Cronenberg's work is thematically consistent and marked by a rigorous intelligence, a keen sense of humor, and a fearless engagement with the nature of human existence. He has been exploring the most primal themes since the beginning of his career and continues to probe them with growing maturity and depth. Cronenberg's work has drawn the interest of some of the most intelligent contemporary film critics, and the fifteen interviews in this volume feature remarkably in-depth and insightful conversations with such acclaimed writers as Amy Taubin, Gary Indiana, David Breskin, Dennis Lim, Richard Porton, Gavin Smith, and more. The pieces herein reveal Cronenberg to be one of the most articulate and deeply philosophical directors now working, and they comprise an essential companion to an endlessly provocative and thoughtful body of work.

First Films Directing 1.0 2021-07-04

Everyone has to start somewhere, for some film directors their first works were nothing short of extraordinary, whether it was due to the content they were exploring or the circumstances in which their films came about. Anne Bancroft, who starred in *The Graduate* (1967) and Richard Benjamin's *Goodbye Columbus* (1969), were actors turned directors. Dennis Hopper's *Easy Rider* (1969) also an actor, was stoned, drunk, and out of control, but also one of the first successful independent directors. David Cronenberg's *The Fly* (1986), a history of violence (2005), a Canadian misfit turned crazy behaviour into a genre. Amy Heckerling's *Clueless* (1995) first creation was a boys' movie about kids in high school. Bob Clark's *Porky's* (1981), a Christmas story (1983) made a film about a he playing a she years before Dustin Hoffman was

Understanding David Mamet 2012-08-27

David O. Russell, b. 1958, boasts a diverse body of work as a writer and director spanning multiple genres and featuring radically differing aesthetic styles. While his early work comically explored taboo subjects with unerring directness, he has also investigated politics with explosive satire in his most recent films, including *American Hustle* and *Silver Linings Playbook*. Russell examines characters and situations that are at once everyday and also extraordinary. Whatever the project, Russell is driven to explore the idiosyncrasies that make each character human, and he extends that curiosity to explore what makes each actor unique. His attentiveness to his cast members has earned him the label of actor's director, due in no small part to the many nominations and awards earned by a long list of Hollywood stars in his movies. Russell has also become one of our era's most interesting formal stylists, as he adopts a visual design appropriate to each of his film's thematic concerns. The result may be a color palette resembling the washed-out pages of a newspaper, achieved by manipulating the film stock for *Three Kings*, or the tumultuous opening of *The Fighter* when an audacious roving camera plunges viewers straight into the story from the very first shots of the film. Rather than building a signature style, Russell has instead tested the varied possibilities of cinematic expression. This career-spanning volume features conversations with scholars and journalists as well as filmmakers speaking to directors like Alexander Payne and Spike Jonze. Russell contextualizes each of his films, offers an intimate account of his evolving writing and directing process, and opens his life to reveal how a remarkable body of work has come to be.
