 methods and applications has served as the foremost guide to television studies designed for the television  
 studies course in communication and media studies curricula television explains in depth how television  
 programs and commercials are made and how they function as producers of meaning author jeremy g butler  
 shows the ways in which camera style lighting set design editing and sound combine to produce meanings that  
 viewers take away from their television experience he supplies students with a whole toolbox of implements  
 to disassemble television and read between the lines teaching them to incorporate critical thinking into  
 their own television viewing the fourth edition builds upon the pedagogy of previous editions to best  
 accommodate current modes of understanding and teaching television highlights of the fourth edition include  
 new chapter and part organization to reflect the current approach to teaching television with greatly  
 expanded methods and theories chapters an entirely new chapter on modes of production and their impact on  
 what you see on the screen discussions integrated throughout on the latest developments in television s on  
 going convergence with other media such as material on transmedia storytelling and youtube s impact on  
 video distribution over three hundred printed illustrations including new and better quality frame grabs of  
 recent television shows and commercials a companion website featuring color frame grabs a glossary flash  
 cards and editing and sound exercises for students as well as powerpoint presentations sample syllabi and  
 other materials for instructors links to online videos that support examples in the text are also provided  
 with its distinctive approach to examining television television is appropriate for courses in television  
 studies media criticism and general critical studies the most trustworthy source of information available
