raymond chandler romantic ideology and the cultural politics of chivalry responds to the general consensus that philip marlowe represents a chivalric knight out of romance the book argues that this commonplace reading requires a stunningly rosy rewriting of marlowe knighthood chivalry and romance the book offers a history of the cultural politics of chivalry from the middle ages through british romanticism to the modern united states exposing the elitism violent masculinism racism and ethno national othering harbored within rizzuto also considers the survival of the chivalric ideology after world war i and argues that the narrative of the great war destroying chivalry rewrites the ghastly history of warfare touching on chandler throughout these cultural histories the book then directly confronts the question of knighthood and romance in the marlowe novels rizzuto identifies an explicit rejection of romance in the service of hardboiled gender class and genre norms including a seldom remarked pattern of violence against women and sexual assault the volume concludes by offering some ideas about chandler s motivations and the reception of the marlowe novels

raymond williams was by common consent one of the two most commanding intellectual figures in the new left that emerged in britain at the turn of the sixties the other being edward thompson williams published in 1961 a text entitled the future of marxism in that essay williams has some remarkable things to say about imperialism the successes of actually existing socialism balanced against its failures and the continued relevance of socialism as the horizon of human liberation he also makes a characteristic methodological point the relation between systems of thought and actual history is both complex and surprising the future of marxism that is to say will not depend on dogma but will instead rest on historical developments on how well are able to actualize marx s ideals in our own unique conjuncture this volume takes up the challenge of reading and extending williams s thought in light of the actual history that has occurred since his passing but with the same ideal of socialism as its guiding horizon if there is one thread visible throughout all of williams s work it is the felt presence of a living thinking individual of a person continually testing ideas in experience in order to see whether they fit the world

they are meant to describe the aim of this volume timed to coincide with what would have been williams s 100th birthday is to test his ideas in our own experience and to engage williams s work in ways that move past the familiar terrain that has grown around it we now know that experience is a dangerous category that community can be hijacked by the right as much as the left and that tradition contains as much conflict as commonality those committed to williams s work can easily find textual arguments or developments across his career to answer these charges and they have what our volume offers is a set of arguments by younger scholars influenced by williams s writings that moves past some of these debates extending williams s work into the 21st century testing and weighing his ideas in light of recent developments and contemporary intellectual culture in doing so we treat williams s thought as one of those resources of hope which he famously suggested would sustain us at a time of deepening inequality and austerity and growing rightward reaction and yet simultaneously and with seeming dialectical necessity a renewed investment in socialism williams might be exactly the kind of figure we need

preface the author of this very practical treatise on scotch loch fishing desires clearly that it may be of use to all who had it he does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible the writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general this section is interleaved with blank sheets for the readers notes the author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition we do not pretend to write or enlarge upon a new subject much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient one great matter is that the loch fisher is depend ent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best a common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat of all the absurd beliefs as to loch fishing this is one of the most absurd try it give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he

catches one for every three the other has he may consider himself very lucky of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance again it is said that the boatman has as much to do with catching trout in a loch as the angler well we dont deny that in an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing

pietro aretino s literary influence was felt throughout most of europe during the sixteenth century yet english language criticism of this writer s work and persona has hitherto been sparse raymond b waddington s study redresses this oversight drawing together literary and visual arts criticism in its examination of aretino s carefully cultivated scandalous persona a persona created through his writings his behaviour and through a wide variety of visual arts and crafts in the renaissance it was believed that satire originated from satyrs the satirist aretino promoted himself as a satyr the natural being whose

sexuality guarantees its truthfulness waddington shows how aretino s own construction of his public identity came to eclipse the value of his writings causing him to be denigrated as a pornographer and blackmailer arguing that aretino s deployment of an artistic network for self promotional ends was so successful that for a period his face was possibly the most famous in western europe waddington also defends aretino describing his involvement in the larger sphere of the production and promotion of the visual arts of the period aretino s satyr is richly illustrated with examples of the visual media used by the writer to create his persona these include portraits by major artists and arti minori engravings portrait medals and woodcuts
