Time Warped 2012-05-03 time rules our lives but how much do we really understand it in time warped we meet the people willing to go to extreme lengths to find out they travel to costa rica to find out if hummingbirds can sense the passage of time they walk towards the edge of a stairwell blindfolded and one man spends two months in an ice cave in total darkness all in an attempt to fathom the tricks time can play on our minds drawing on the latest research from psychology neuroscience and biology award winning bbc radio4 presenter claudia hammond delves into the mysteries of time perception she shows us how to manage time more efficiently why speeds up as you get older and ultimately how to use the warping of time to our own advantage

Trees on Mars 2015-10-20 the future is big right now for perhaps the first time our society is more focused on what is going to happen in the future than what is happening right now in trees on mars our obsession with the future cultural critic and indie entrepreneur hal niedzwiecki asks how and when we started believing we could and should create the future what is it like to live in a society utterly focused on what is going to happen next through visits to colleges corporations tech conferences factories and more niedzwiecki traces the story of how owning the future has become irresistible to us in deep conversation with both the beneficiaries and victims of our relentless obsession with the future niedzwiecki asks crucial questions where are we actually heading how will we get there and whom may we be leaving behind

Warped 1995-01-01 as political tensions rise on bajo security chief odo probes a series of murders aboard the station while commander sisko struggles to cope with a new religious faction out to seize control of bajo and to force the federation out of the region

Time Warped 2022-01-26 time warped is a book of five read aloud plays that stretch the truth about the past with plays such as renaissance reform school and the idiodyssey this book will have students laughing as they try to decipher what is real and what is not each play includes follow up activities for writing discussion and research

Warped Narratives 2020 the politics of gun policy in the united states are dramatic against the backdrop of daily gun violence which claims more than 33 000 lives per year gun control groups push for stronger regulations while gun rights groups resist infringements upon their second amendment rights to illuminate the dynamics of this polarized debate warped narratives examines how and why interest groups frame the gun violence problem in particular ways exploring the implication of groups framing choices for policymaking and politics melissa k merry argues that the gun policy arena is warped and that both gun control and gun rights organizations contribute to the distortion of the issue by focusing on atypical characters and settings in their policy narratives gun control groups emphasize white victims child victims and mass shootings in suburban locales while gun rights groups focus on self defense shootings highlighting threats to law abiding gun owners in reality most gun deaths are the result of suicide homicides occur disproportionately in urban areas mainly affecting racial minorities while warping makes political sense in the short term it may lead to negative long term consequences including constraints on groups ability to build broad based coalitions and to reduce prospects for compromise to demonstrate warping merry analyzes nearly 67 000 communications by 15 national gun policy groups between 2000 and 2017 collected from blogs emails facebook posts and press releases this book is the first to systematically assess the role of race in gun policy groups framing and offers the most comprehensive examination to date of interest groups presentation of this issue

Time and Environmental Law 2017-08-03 through the lens of time the book critiques environmental law and recommends ways to enable it to respond to nature s time scales

Remembering the Future 2015-12-07 common to both judaism and christianity is a heightened engagement with time within liturgical practice in which collective religious memory and anticipation come together to create a unique sense of time exploring the nebulous realms of religious experience and the sense of time remembering the future charts the ways that the experience of time is shaped by the traditions of judaism and christianity and experienced within their ritual practices through comparative explorations of traditional jewish and christian understandings of time contemporary oral testimonies and discussions of the work of select twentieth century jewish and christian thinkers this book maps the temporal landscapes of the religious imagination maintaining that the sense of time is integral to

jewish and christian religious experience remembering the future makes a notable contribution to interreligious studies and liturgical studies it sheds light on essential aspects of religious experience and finds that the intimacy of the experience of time grants it the capacity to communicate across religious boundaries subtly transgressing obstacles to interreligious understanding

The Power of Moments 2017-10-03 the new york times bestselling authors of switch and made to stick explore why certain brief experiences can jolt us and elevate us and change us and how we can learn to create such extraordinary moments in our life and work while human lives are endlessly variable our most memorable positive moments are dominated by four elements elevation insight pride and connection if we embrace these elements we can conjure more moments that matter what if a teacher could design a lesson that he knew his students would remember twenty years later what if a manager knew how to create an experience that would delight customers what if you had a better sense of how to create memories that matter for your children this book delves into some fascinating mysteries of experience why we tend to remember the best or worst moment of an experience as well as the last moment and forget the rest why we feel most comfortable when things are certain but we feel most alive when they re not and why our most cherished memories are clustered into a brief period during our youth readers discover how brief experiences can change lives such as the experiment in which two strangers meet in a room and forty five minutes later they leave as best friends what happens in that time or the tale of the world s youngest female billionaire who credits her resilience to something her father asked the family at the dinner table what was that simple question many of the defining moments in our lives are the result of accident or luck but why would we leave our most meaningful memorable moments to chance when we can create them the power of moments shows us how to be the author of richer experiences

The Psychology of Time 2024-03-07 what is the meaning of time do we have an internal clock can time speed up or slow down the psychology of time considers how we define describe and experience time from a discussion of how our language around time is dependent on metaphor to the role of biology in controlling our bodily experience of time the book delves into how the finitude of life is a given human experience it looks at how we reflect on the passage of time throughout our lives and how our experience of time can be influenced by diverse factors including our age gender health and culture offering insights into something we are all immersed in but often give little thought to the psychology of time shows us how our understanding and experience of time can influence our everyday behaviour

Ethics in Psychology and the Mental Health Professions 2016 revised edition of the authors ethics in psychology and the mental health professions 2008

The Restless Compendium 2016-09-27 this book is open access under a cc by license this interdisciplinary book contains 22 essays and interventions on rest and restlessness silence and noise relaxation and work it draws together approaches from artists literary scholars psychologists activists historians geographers and sociologists who challenge assumptions about how rest operates across mind bodies and practices rest s presence or absence affects everyone nevertheless defining rest is problematic both its meaning and what it feels like are affected by many socio political economic and cultural factors the authors open up unexplored corners and experimental pathways into this complex topic with contributions ranging from investigations of daydreaming and mindwandering through histories of therapeutic relaxation and laziness and creative critical pieces on lullabies and the sabbath to experimental methods to measure aircraft noise and track somatic vigilance in urban space the essays are grouped by scale of enquiry into mind body and practice allowing readers to draw new connections across apparently distinct phenomena the book will be of interest to students and scholars across a range of disciplines in the social sciences life sciences arts and humanities
