the 9th european conference on information management and evaluation ecime is being hosted this year by the university of the west of england bristol uk on the 21 22 september 2015 the conference chair is dr elias pimenidis and the programme chair is dr mohammed odeh both from the host university ecime provides an

opportunity for individuals researching and working in the broad field of information systems management including its evaluation to come together to exchange ideas and discuss current research in the field. This has developed into a particularly important forum for the present era where the modern challenges of managing information and evaluating the effectiveness of related technologies are constantly evolving. In the world of big data and cloud computing we hope that this year's conference will provide you with plenty of opportunities to share your expertise with colleagues from around the world. The keynote speakers for the conference are Professor Haris Mouratidis from the School of Computing, Engineering and Mathematics, University of Brighton, UK, who will address the topic 'Rethinking Information Systems Security', Dr Mohammed Odeh from the University of the West of England, Bristol, UK, and Dr Mario Kossmann from Airbus UK, who will talk about the significance of information systems management and evaluation in the aerospace industry. ECIME 2015 received an initial submission of 55 abstracts. After the double-blind peer review process, 28 academic research papers, 5 PhD research papers, 1 Masters research paper, and 3 work-in-progress papers have been accepted for these conference proceedings. These papers represent research from around the world, including Austria, Botswana, Cyprus, Czech Republic, Ireland, Japan, Kuwait, New Zealand, Norway, Poland, Portugal, Slovakia, Russia, South Africa, South Korea, Sweden, the Netherlands, UK, and the USA.

jsl invites the submission of manuscripts that contribute to the exchange of ideas and scholarship about schools and leadership all theoretical and methological approaches are welcome we do not advocate or practice a bias toward any mode of inquiry e g qualitative vs quantitative empirical vs conceptual discipline based vs

interdisciplinary and instead operate from the assumption that all careful and methodologically sound research has the potential to contribute to our understanding of school leadership we strongly encourage authors to consider both the local and global implications of their work the journal s goal is to clearly communicate with a diverse audience including both school based and university based educators the journal embraces a broad conception of school leadership and welcomes manuscripts that reflect the diversity of ways in which this term is understood the journal is interested not only in manuscripts that focus on administrative leadership in schools and school districts but also in manuscripts that inquire about teacher student parent and community leadership

labour and social security law studies have addressed the topic of the decline of the standard employment relationship mainly from the point of view of the growing number of atypical relationships only a limited number of studies have examined the issue from the perspective of the differentiation between core and contingent work such an examination is necessary as the increase in contingent work leads to complicated legal questions which vary between european states depending on the type of contingent arrangements that have become most prevalent this book analyses using a comparative approach these different types of contingency from a national

and eu perspective touching on the work relationship from a labour as well as a social security point of view the aim of the book is to identify and analyse those questions adopting an innovative approach and to put forward proposals for safeguarding social cohesion within undertakings and european society
