 masculinities women writing about women dominates contemporary work on
 sexuality men have been far more willing to discuss female sexuality
 than male sexuality while the most radical and insightful analyses of
 male sexuality have come from women when men consider the issue of
 female sexuality they often speak from assumptions of security about
 their own unexamined sexuality this book maintains that men have to
 interrogate their own sexuality if there is to be a revision of
 phallogentric discourse and that this revision of masculinity must be
 done in dialogue with women the essays included in this collection
 examine the deep structure of masculine codes they ask the question
 who are the men in modern literature examining the force of the

 feminism psychoanalysis post structuralism and new historicism these
 perspectives help explain how male sexuality has been structured by
 fictional representations by examining the images of masculinity in
 modern literature the essays explore traditional and non traditional
 roles of men in society and in personal relationships they look at how
 men are represented in literature the fiction of manhood they attempt
 to unravel the assumptions behind these representations by looking at
 the implications of this imagination and they speculate on
 possibilities for creating a new imaginary of masculinity by
