## **Utah Middle School Math Grade 8, Chapter 8 Student Workbook TE**

2002-06-01

math mammoth grade 8 b worktext is the second student book for eighth grade mathematics and part of the math mammoth grade 8 complete curriculum the book starts with chapter 5 graphing linear equations students study slope and graph and write linear equations in slope intercept and standard forms they also learn about parallel and perpendicular lines in chapter 6 students delve into square roots cube roots and irrational numbers and solve equations involving square and cube roots the rest of the chapter is spent studying the pythagorean theorem and its applications next in chapter 7 we focus on systems of linear equations students learn the three basic techniques for solving these and also solve a variety of problems that are solved with a pair of linear equations the last chapter covers statistical topics scatter plots and two way tables features math mammoth focuses on conceptual understanding it explains the why so students can understand the math not just learn how to do it the curriculum is mastery oriented this means it concentrates fairly long on a topic delving into its various aspects this promotes conceptual understanding as opposed to spiral curricula that often tend to jump from topic to topic too much it requires very little teacher preparation the curriculum has no separate teacher s manual nor is it scripted the introduction to each chapter has some notes for the teacher concerning the material in the chapter all the instruction is written directly to the student in the worktext each chapter introduction also includes a list of internet links and resources games quizzes animations etc that can be used for fun illustrations and further practice
